

ODFW, and who are willing to carry an observer on board their vessel during all EFP fishing. The information gathered through this EFP may lead to changes in the management measures and future rulemakings.

An EFP is needed to allow for vessel to retain and land fish in excess of the trip limits announced in the **Federal Register** and to use the experimental trawl gear to directly harvest Dover sole, petrale sole, English sole, rex sole, and arrowtooth flounder in an RCA, where these flatfish species are most abundant. These activities are otherwise prohibited by Federal regulations. The information gathered through this EFP may lead to future rulemakings.

If issued, approximately eight vessels from various ports along the coast of Oregon, that have historically harvested Petrale and English sole, will fish under this EFP between May 1 and October 31, 2003. Vessels would be required to retain all rockfish and the proceeds from the sale of rockfish in excess of current trip limits would be abandoned to NMFS or the state of landing. During the effective dates of the EFP, participating vessels must carry a Federal fishery observer whenever they: (1) fish in a RCA; (2) use the experimental trawl gear specified in this EFP whether or not the vessel is used to fish within an RCA; or (3) take, retain, possess or land fish in excess of the current trip limits published in the **Federal Register**.

Participation under this EFP does not exempt a vessel from Federal observer coverage requirements at 50 CFR 660.360. A participating vessel may also be required to carry a Federal observer throughout the cumulative period.

In addition to the cumulative trip limits announced in the **Federal Register**, each participating vessel will be permitted to take 1,500 lb (680 kg) of "other flatfish" and petrale sole per month, and 7,000 lb (3175 kg) of Dover sole per month. The total amount (discard plus retained) of Dover sole allowed to be taken under this EFP will not exceed 305 metric tons (mt) and total amount (discard plus retained) of petrale sole and "other flatfish" combined will not exceed 65 mt. The EFP fishing will be constrained by the following EFP limits for overfished species: yelloweye rockfish 1.2 mt, canary rockfish 2.7 mt, and widow rockfish 1.0 mt, darkblotched rockfish 2.1 mt, and Pacific ocean perch  $P > 0.5$  mt. If the EFP limits for any one of these overfished species is reached, the EFP will be terminated for the remainder of the 2003 fishing year. All EFP harvests are expected to be within set asides for 2003 EFP harvests and, therefore, no OY is expected to be exceeded.

This EFP requires that the participating vessels carry a Federal groundfish observer provided by NMFS. Observers will collect data from vessels which incidental catch rates and total catch of various species and species groups can be estimated. Observers may also collect and retain specimens of otherwise prohibited fish caught by the vessel.

At the Pacific Fishery Management Councils (Council) November 2002, meeting in Foster City, CA, the applicants presented this EFP application to the Council. The Council considered the application and recommended that NMFS issue the EFP for the proposed activity. Data collected during this project are expected to benefit the management of the groundfish fishery by providing much needed information on how effectively unintended species can be selected against by using a trawl gear design that is based on behavioral differences between species. Copies of the applications are available for review from NMFS (see **ADDRESSES**).

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: April 16, 2003.

## DEPARTMENT OF COMMERCE

### United States Patent and Trademark Office

[Docket No. 2003-C-016]

#### Notice of Publication of the 2002 Annual Index to the Electronic Official Gazette of the Patent and Trademark Office—Patents (eOG:P)

**AGENCY:** United States Patent and Trademark Office, Commerce.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the United States Patent and Trademark Office (USPTO) has published the 2002 Annual Index to the *Electronic Official Gazette of the United States Patent and Trademark Office—Patents (eOG:P)*. This annual index is published on DVD-ROM.

**DATES:** The 2002 Annual Index to the eOG:P is now available.

**SUPPLEMENTARY INFORMATION:** The United States Patent and Trademark Office has announced that the 2002 *Annual Index to the Electronic Official Gazette of the United States Patent and Trademark Office "Patents (eOG:P)"* is

now available. This electronic annual index is unique from previous paper annual indexes in that the indexes and bibliographic records for the year are now included in this one source. The 2002 Annual Index provides all records contained in the weekly issues of the eOG:P for 2002, including January through June, which were previously not available electronically.

The eOG:P records contain bibliographic information, including classification, inventor and assignee, as well as a representative claim and drawing (if applicable). Consistent with the weekly eOG:P issues, patents are indexed and browsable by classification and type of patent (utility, plant, etc.), as well as by patentee name and geographical location of the inventor. Links are provided from all indexes to the eOG:P record for that patent.

The *Official Gazette Notices*, covering both patents and trademarks, are included as is the *Consolidated Listing of Official Gazette Notices Re—Patent and Trademark Office Practices and Procedures*. This publication is a compilation of the most important notices and rule changes which have been published in the *Official Gazette* from July 1, 1964, through December 21, 2002. Appendices include a summary of the number of Patents, Defensive Publications, and Statutory Invention Registrations issued from 1836 through 2002 and a listing of Patent and Trademark Depository Libraries (PTDLs).

Due to the large amount of data, the 2002 *Annual Index to the eOG:P* is published on one DVD-ROM disc, not on CD-ROM. The price of the index is \$300.00 and is not included in the annual subscription price of the eOG:P.

The *Index of Patents Issued From the United States Patent and Trademark Office* will continue to be published in a paper format through 2002 to coincide with the paper publication of the *Official Gazette—Patents*, which ceased publication as of September 24, 2002. This publication will continue to be supplied by the Superintendent of Documents, U.S. Government Printing Office (GPO). For more information, please visit the GPO Web site at: [http://www.access.gpo.gov/su\\_docs/](http://www.access.gpo.gov/su_docs/).
