## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

#### Endangered and Threatened Wildlife and Plants; 5-Year Review of the Marbled Murrelet and the Northern Spotted Owl

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of review.

**SUMMARY:** We, the U.S. Fish and Wildlife Service, announce a 5-year review of the marbled murrelet (*Brachyramphus marmoratus*) and the northern spotted owl (*Strix occidentalis caurina*) under section 4(c)(2)(A) of the Endangered Species Act of 1973, as amended (Act). The purpose of the review is to ensure that the classification of species' as threatened or endangered on the List of Endangered and Threatened Wildlife and Plants (List) are accurate.

The 5-year review is an assessment of the best scientific and commercial data available at the time of the review. Therefore, we are requesting submission

of any new information (best scientific and commercial data) on the marbled murrelet and the northern spotted owl since their original listings in 1992 and 1990, respectively. If the present classification of these species is not consistent with the best scientific and commercial information available, we may, at the conclusion of this review, initiate a separate action to propose changes to the List accordingly.

**DATES:** To allow us adequate time to conduct this review, we must receive your information no later than June 20, 2003. However, we will continue to accept new information about any listed species at any time.

**ADDRESSES:** Submit information to the Field Office Supervisor, Attention Owl and Murrelet 5-year Review, Oregon Fish and Wildlife Office, 2600 SE. 98th Avenue, Suite 100, Portland, Oregon 97266. Information received in response to this notice and review results will be available for public inspection by appointment, during normal business hours, at the above address. New information regarding the northern spotted owl may be sent electronically to [owl\\_information@r1.fws.gov](mailto:owl_information@r1.fws.gov). New information regarding the marbled murrelet may be sent electronically to [murrelet\\_information@r1.fws.gov](mailto:murrelet_information@r1.fws.gov).

**FOR FURTHER INFORMATION CONTACT:** For the marbled murrelet, contact Lee Folliard at the above address, or at 503/231–6179. For the northern spotted owl, contact Robin Bown at the above address, or at 503/231–6179.

#### **SUPPLEMENTARY INFORMATION:**

##### **Why Is a 5-year Review Conducted?**

Section 4(c)(2)(A) of the Act requires that we conduct a review of listed

species at least once every 5 years. We are then, under section 4(c)(2)(B) and the provisions of subsection (a) and (b), to determine, on the basis of such a review, whether or not any species should be removed from the List (delisted), or reclassified from endangered to threatened, or threatened to endangered. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently under active review. This notice announces our active review of the marbled murrelet and northern spotted owl.

The 5-year review considers all new information available at the time of the review. This review will consider the best scientific and commercial data that has become available since the current listing determination or most recent status review, such as:

A. Species biology including, but not limited to, population trends, distribution, abundance, and demographics, and genetics;

B. Habitat conditions including, but not limited to, amount, distribution, and suitability;

C. Conservation measures that have been implemented that benefit the species;

D. Threat status and trends (see five factors under heading “How do we determine whether a species is endangered or threatened?”);

E. Other new information, data, or corrections including, but not limited to, taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.
