OSHA's recognition of TUVPSG, or any NRTL, for a particular test standard is limited to equipment or materials (*i.e.*, products) for which OSHA standards require third party testing and certification before use in the workplace. Consequently, an NRTL's scope of recognition excludes any product(s) that fall within the scope of a test standard, but for which OSHA standards do not require NRTL testing and certification.

Many of the test standards listed above, are approved as American National Standards by the American National Standards Institute (ANSI). However, for convenience in compiling the list, we often use the designation of the standards developing organization (*e.g.*, UL 1026) for the standard, as opposed to the ANSI designation (*e.g.*, ANSI/UL 1026). Under our procedures, an NRTL recognized for an ANSI-approved test standard may use either the latest proprietary version of the test standard or the latest ANSI version of that standard, regardless of whether it is currently recognized for the proprietary or ANSI version. Contact "NSSN" (<http://www.nssn.org>), an organization partially sponsored by ANSI, to find out whether or not a test standard is currently ANSI-approved.

Conditions

TUVPSG must also abide by the following conditions of the recognition, in addition to those already required by 29 CFR 1910.7:

Only TUV America, Inc. (TUVAM), or TUV Product Services GmbH (TUVPSG) may authorize the U.S. registered certification mark currently owned by TUV America, Inc. TUVPSG may authorize the use of this mark only at the facility recognized by OSHA;

OSHA must be allowed access to TUVPSG's facility and records for purposes of ascertaining continuing compliance with the terms of its recognition and to investigate as OSHA deems necessary;

If TUVPSG has reason to doubt the efficacy of any test standard it is using under this program, it must promptly inform the test standard developing organization of this fact and provide that organization with appropriate

relevant information upon which its concerns are based;

TUVPSG must not engage in or permit others to engage in any misrepresentation of the scope or conditions of its recognition. As part of this condition, TUVPSG agrees that it will allow no representation that it is either a recognized or an accredited Nationally Recognized Testing Laboratory (NRTL) without clearly indicating the specific equipment or material to which this recognition is tied, or that its recognition is limited to certain products;

TUVPSG must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major changes in its operations as an NRTL, including details;

TUVPSG will meet all the terms of its recognition and will always comply with all OSHA policies pertaining to this recognition; and

TUVPSG will continue to meet the requirements for recognition in all areas where it has been recognized.

Signed in Washington, DC this 11th day of April, 2003.

John L. Henshaw,

Assistant Secretary.
