

State or Tribe under section 404 of the Act. In addition, under the CWA, States or approved Tribes establish water quality standards for "waters of the U.S.", and also may assume responsibility for issuance of CWA permits for discharges into waters and wetlands subject to the Act. Today's ANPRM seeks public input on what, if any, revisions in light of SWANCC might be appropriate to the regulations that define "waters of the U.S.", and today's ANPRM thus would be of interest to all entities discharging to, or regulating, such waters. In addition, because the Oil Pollution Act (OPA) is applicable to waters and wetlands subject to the CWA, today's ANPRM may have implications for persons or entities subject to the OPA. Examples of entities potentially regulated include:
