

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 679**

[Docket No. 021212307-3037-02; I.D. 041803C]

Fisheries of the Exclusive Economic Zone off Alaska; Pacific Cod by Catcher Vessels less than 60 Feet Length Overall Using Hook-and-line or Pot Gear in the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by catcher vessels less than 60 feet length overall (LOA) using hook-and-line or pot gear in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2003 total allowable catch (TAC) of Pacific cod allocated to catcher vessels less than 60 feet LOA using hook-and-line or pot gear in this area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), April 22, 2003, until 2400 hrs, A.l.t., December 31, 2003.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian

Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2003 Pacific cod TAC allocated to catcher vessels less than 60 feet LOA using hook-and-line or pot gear in the BSAI is 1,363 metric tons (mt) as established by the final 2003 harvest specifications for Groundfish of the BSAI (68 FR 9907, March 3, 2003).

The A season directed fisheries for Pacific cod by vessels 60 feet LOA and greater using pot gear was closed on February 26, 2003 (68 FR 9942, March 3, 2003). The A season directed fisheries for Pacific cod by vessels 60 feet LOA and greater using hook-and-line gear was closed on March 28, 2003 (68 FR 15969, April 2, 2003). Pursuant to 50 CFR 679.20(a)(7)(i)(C)(2)(ii) and (3)(ii), at the time of the closures the 1,363 mt allowance of Pacific cod became available to catcher vessels less than 60 feet LOA using hook-and line or pot gear.

In accordance with § 679.20(d)(1)(iii), the Administrator, Alaska Region, NMFS, has determined that the 2003 Pacific cod TAC allocated as a directed fishing allowance to catcher vessels less than 60 feet LOA using hook-and-line or pot gear in the BSAI will soon be reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by catcher vessels less than 60 feet LOA using hook-and-line or pot gear in the BSAI.

Maximum retainable amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is contrary to the public interest. This requirement is contrary to the public interest as it would delay the closure of the fishery, lead to exceeding the 2003 Pacific cod TAC allocated to catcher vessels less than 60 feet LOA using hook-and-line or pot gear, and therefore reduce the public's ability to use and enjoy the fishery resource.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 22, 2003.

Dean Swanson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
