

information placed on the record. In this case, the Department has applied partial facts available for a quantity of unreported sales and the general and administrative expense ratio. (See the *Decision Memorandum* at comments 1 and 2).

Final Results of Review

As a result of our review, we determine that the following weighted-average margin exists for the period of August 1, 2000, through July 31, 2001:

Exporter/Manufacturer	Weighted-Average Margin Percent- age
Ausimont SpA	12.08

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated importer-specific assessment rates by dividing the dumping margin found on the subject merchandise examined by the entered value of such merchandise. Where the importer-specific assessment rate is above de minimis we will instruct the Customs Service to assess antidumping duties on that importer's entries of subject merchandise. The Department will issue appropriate assessment instructions directly to the Customs Service within 15 days of publication of these final results of review.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of these final results of administrative review, as provided by section 751(a) of the Act: (1) for the exporter/manufacturer covered by this review, the cash deposit rate will be the rate listed above; (2) for merchandise exported by producers or exporters not covered in this review but covered in a previous segment of this proceeding, the cash deposit rate will continue to be the company-specific rate published in the most recent final results in which that producer or exporter participated; (3) if the exporter is not a firm covered in this review or in any previous segment of this proceeding, but the producer is, the cash deposit rate will be that established for the producer of the merchandise in these final results of review or in the most recent final results in which that producer participated; and (4) if neither the exporter nor the producer is a firm covered in this review or in any previous segment of this proceeding, the cash deposit rate will be 46.46 percent,

the "All Others" rate established in the less-than-fair-value investigation (53 FR 26096, July 11, 1988). These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402 (f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred, and in the subsequent assessment of double antidumping duties.

This notice also is the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing these results and notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: January 8, 2003.

Faryar Shirzad,

Assistant Secretary for Import Administration.

Appendix

1. Unreported further manufactured sales
2. Calculation of the CEP profit ratio
3. Application of the special rule
4. Treatment of sales of off-spec merchandise
5. Treatment of negative margins
6. Packing expenses for further manufactured sales
7. Issuance of draft final results
