

control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 4.8 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Publicly owned treatment works (POTWs), privately owned treatment works, new and existing industrial manufacturing and commercial discharger, storm water dischargers, treatment works treating domestic sewage (TWTDS), and States and territories.

Estimated Number of Respondents: 291,898.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 1,398,737 hours.

Estimated Total Annual Cost: \$53,546,024, includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 639,957 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease in the applicant respondent and NPDES-authorized state burden is due to a reduction in the burden associated with existing storm water permittees updating rather than developing Storm Water Pollution Prevention Plans.

Dated: April 10, 2003.
