

(f) Any attachments, appendices, references, or other relevant information that directly support the narrative may accompany it, but must not exceed 20 pages for your entire application. Any pages in excess of this limit will not be read. Specific criteria for the content of the appendices for the Lead Outreach Grant Program application are listed in the Checklist and Submission Table of Contents.

(g) Within Appendix 1, the resumes and position descriptions of your project director, project manager and up to three additional key personnel (in accordance with Rating Factor 1). These should not exceed three pages each. This information will not be counted towards the page limit.

(h) Within Appendix 3, a detailed budget with supporting cost justification for all budget categories of your funding request, in accordance with Rating Factor 3. This information will not be counted towards the page limits. A detailed budget must also be provided for any subcontractors, subgrantees, or subrecipients receiving greater than 10 percent of the Federal budget request.

(i) Any information or materials that are not listed above will not be reviewed.

VII. Corrections to Deficient Applications

See Section VIII of the General Section of this SuperNOFA for information about corrections to deficient applications.

Appendix A

Lead: Exposure to lead, especially from deteriorating lead-based paint, remains one of the most important and best studied of the household environmental hazards to children. Although blood lead levels have fallen nationally, a large reservoir of lead remains in housing. The national survey published by the Centers for Disease Control and Prevention, conducted from 1991–94, showed that nearly one million U.S. preschoolers still have elevated blood lead levels. Overall, the prevalence rate among all children under six years of age was 4.4 percent. Among low-income children living in older housing where lead-based paint is most prevalent, the rate climbed to 16 percent; and for African-American children living in such housing, it reached 21 percent.

HUD estimates that 38 million dwellings have some lead-based paint, and that 26 million have significant lead-based paint hazards. Of those, about 5.7 million have young children and of those, about 1.6 million have household incomes under \$30,000 per

year. Costs for lead hazard control can range anywhere from \$500 to \$15,000 per unit, depending on the extent of the hazard and the type of hazard control measures. Corrective measures include paint stabilization, enclosure and removal of certain building components coated with lead paint, and cleanup and clearance testing, which ensures the unit is safe for young children.

Educating the public and individuals living in “at-risk communities” about lead poisoning, symptoms, treatment and lead hazard prevention and control, and encouraging occupants to identify potential lead-based paint hazards, report them to property owners and managers, and public health and/or housing officials as appropriate, and enroll their housing units in lead hazard treatment programs, are key components in an overall plan to reduce the prevalence rate of lead poisoned children.

Appendix B

References

To secure any of the documents listed below, call the telephone number provided. Several of these references are provided on HUD’s CD, “Residential Lead Desktop Reference, 3rd Edition.” This CD can be obtained at no charge by calling the National Lead Information Clearinghouse’s toll-free number, 1-800-424-LEAD. If you are a hearing- or speech-impaired person, you may reach the telephone numbers via TTY by calling the toll-free Federal Information Relay Service at 1-800-877-8339. Several of these references can be downloaded from the Internet without charge from the HUD Office of Healthy Homes and Lead Hazard Control’s Internet site, <http://www.hud.gov/offices/lead>.

Regulations

1. Requirements for Notification, Evaluation and Reduction of Lead-Based Paint Hazards in Federally Owned Residential Property and Housing Receiving Federal Assistance, 24 CFR Part 35 (HUD, Lead Safe Housing Rule). A free copy of this rule and guidance can be obtained by calling 1-800-424-LEAD (this is a toll-free number). If you are a hearing- or speech-impaired person, you may reach this telephone number via TTY by calling the toll-free Federal Information Relay Service at 1-800-877-8339, or through the HUD Web site at <http://www.hud.gov/offices/lead>.

2. Lead; Requirements for Disclosure of Information Concerning Lead-Based Paint in Housing, 24 CFR Part 35, Subpart A (HUD, Lead-Based Paint Disclosure Rule). A free copy of the rule, guidance, pamphlet and disclosure formats can be obtained by calling 1-800-424-LEAD (this is a toll-free number) or through the HUD Web site at <http://www.hud.gov/offices/lead>.

3. Lead; Requirements for Lead-Based Paint Activities in Target Housing and Child-Occupied Facilities; Final Rule: 40 CFR Part 745, (EPA Lead Hazard Standards, Work

Practice Standards, EPA and State Certification and Accreditation programs for those engaged in lead-based paint activities). A free copy of the rule and guidance can be obtained by calling the Toxic Substances Control Act Hotline at 1-202-554-1404 (this is not a toll-free number) or through the EPA Web site at <http://www.epa.gov/lead>. If you are a hearing- or speech-impaired person, you may reach this telephone number via TTY by calling the toll-free Federal Information Relay Service at 1-800-877-8339.

4. Lead; Requirements for Hazard Education Before Renovation of Target Housing, 40 CFR Part 745 (EPA, Pre-Renovation Education Rule). A free copy of the rule, guidance and pamphlet can be obtained by calling 1-800-424-LEAD (this is a toll-free number) or through the EPA Web site at <http://www.epa.gov/lead>.

Guidelines

1. Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing; HUD, June 1995, and amended September, 1997. A copy of the guidelines can be purchased by calling 1-800-245-2691 (this is a toll-free number) or downloaded without charge from the HUD Web site at <http://www.hud.gov/offices/lead>. If you are a hearing- or speech-impaired person, you may reach this telephone number via TTY by calling the toll-free Federal Information Relay Service at 1-800-877-8339.

2. Preventing Lead Poisoning in Young Children; Centers for Disease Control, October 1991. A free copy of this document can be obtained by calling 1-888-232-6789 (this is a toll-free number) or through the HUD Web site at <http://www.hud.gov/offices/lead>. If you are a hearing- or speech-impaired person, you may reach this telephone number via TTY by calling the toll-free Federal Information Relay Service at 1-800-877-8339.

3. Screening Young Children for Lead Poisoning; Guidance for State and Local Public Health Officials, November 1997. Centers for Disease Control and Prevention (CDC). A free copy of this document can be obtained by calling 1-888-232-6789 (this is a toll-free number) or through the HUD Web site at <http://www.hud.gov/offices/lead>.

Reports

1. Putting the Pieces Together: Controlling Lead Hazards in the Nation’s Housing. (Summary and Full Report); HUD, July 1995. A copy of this summary and report can be purchased by calling 1-800-245-2691 (this is a toll-free number) or downloaded without charge from the HUD Web site at <http://www.hud.gov/offices/lead>.

2. President’s Task Force on Environmental Health Risks and Safety Risks to Children. *Eliminating Childhood Lead Poisoning: A Federal Strategy Targeting Lead Paint Hazards*. Washington, DC, 2000. These documents can be downloaded without charge from the HUD Web site at <http://www.hud.gov/offices/lead>.
