

**8. Supplemental Resources.**

HUD funding is limited and, therefore, can provide only a portion of the resources needed to successfully address the needs of homeless families and individuals. This being the case, please provide the following:

A. **Project Leveraging.** Fill out the *Continuum of Care: Project Leveraging* chart. (See instructions with chart).

B. **Enrollment and Participation in Mainstream Programs.**

Describe your Continuum of Care-wide strategy currently in place to **systematically**:

- (1) **IDENTIFY ELIGIBILITY** of homeless persons for mainstream programs.
- (2) **HELP ENROLL** them in the following programs for which they are eligible: SSI, TANF, Medicaid, Food Stamps, SCHIP, Workforce Investment Act, Veterans Health Care.
- (3) **ENSURE THEY RECEIVE** assistance under each of the programs for which they are enrolled.

C. **Participation in Mainstream Programs and Employment.**

In order for HUD to assess the results of your continuum's effort in implementing this strategy, please complete the following chart. The source of information is from the most recent Annual Progress Report (APR) for all SHP and SPC renewals being submitted in this year's competition.

**Instructions for filling out the Participation in Mainstream Programs and Employment chart:**

Column 1 – *Income Source*. Use these income sources from the APR (Question 11).

Column 2 – *Adults Who Exited (All Renewals)*. For each SHP and SPC renewal being submitted in this year's competition, use APR Question 2C (*Number who left the program during the operating year*). For each APR, add the *Number of Singles Not in Families* and the *Number of Adults in Families*. The total represents the number of adults who exited the project during the operating year. Add the total from each renewal's APR to get the total number of adults in the CoC who left the projects during the operating year.

Column 3 – *Source of Income at Entry*. Using the information in each project's APR Question 11C (*Income Sources at Entry*), add the total number of exiting adults who, upon entry to the project, already had each source of income.

Column 4 – *% with Income at Entry*. Divide Column 3 by Column 2, multiply by 100 and round.

Column 5 – *Source of Income at Exit*. Using the information in each project's APR Question 11D (*Income Sources at Exit*), add the total number of adults who, upon exiting the project, had each source of income.

Column 6 – *% with Income at Exit*. Divide Column 5 by Column 2, multiply by 100 and round.

Column 7 – *Entry / Exit Difference*. Subtract Column 4 from Column 6.

**IMPORTANT:** If you are not submitting any renewals in this year's competition, provide the chart using the most recent APR for all currently operating SHP and SPC projects in your continuum.
