

Chart 3: Supportive Services

If your new project is requesting the use of SHP funds for any supportive services, please complete Chart 3 on the following page for your project's supportive services budget. If you need additional space for more services, you may reproduce this chart.

In the first column, the supportive service activity is given. Please enter the quantity for each supportive service that will be provided in your project (see example below). Any other eligible supportive service and quantity that will be paid for using SHP funding that is not listed on the chart may be added under "other service activity". For staff positions please include the job title and quantity (or FTE-full time equivalent); for supportive services (such as transportation services) please include the type (e.g., bus tokens) and quantity. Please ensure that the total SHP dollars requested match the amount you entered in the "SHP Request" column on Line 6, Supportive Services, in your Project Budget in Section K.

In the second column, enter the amount of SHP funding requested for each eligible supportive service that will be provided in your project.

In the third column, enter the estimated number of persons that will be served at a point in time.

Supportive services are designed to address the special needs of the homeless persons to be served by the project. Services may be provided directly by the project sponsor and/or through an arrangement with public or private service providers, including the grantee. By law, SHP funds may be used to pay for up to 80% of the total supportive services budget for each year of the grant term. This means that the grantee must make a cash payment for at least 20% of the project's total supportive services budget annually.

SHP supportive service funds may be used to pay for the actual costs of supportive services and other costs directly associated with providing such services (see the SHP Rule at Section 583.120). Eligible supportive services include, but are not limited to: child care, employment assistance, outreach, outpatient health services, case management, food, housing placement assistance, life skills, and other services. Transportation associated with the delivery of supportive services (e.g., money for bus tokens to go to mental health counseling; the purchase of a van to transport homeless children to daycare) is also an eligible supportive service cost.

If a project sponsor's staff will deliver a service, only the staff time directly related to the delivery of that service to the project is eligible for SHP supportive services funding. For example, the project sponsor, ABC, Inc., will use 25% of its substance abuse counselor's time for recovery planning for residents of its transitional housing program. The remainder of the counselor's time will be spent counseling persons in another program. Using this example, only 25% of the counselor's salary may be paid for with SHP supportive service funds.

Example:

Supportive Service Costs	SHP Dollars Requested (2 or 3 years)	Est. No. of Persons Served (point in time)
Service Activity: Case Management Quantity: 2 FTE @ \$25,000 per year	\$100,000	60
Service Activity: Education—job training Quantity: 20 slots per year	\$ 50,000	40
