

If an APR has not been submitted, a written response describing progress toward goals and coordination of mainstream resources may be submitted.

8. If my application for renewal of an SHP project is not funded in a competition, what sources of funds can I use to continue my project?

To continue an SHP project that was unsuccessful in seeking renewal in a prior competition, you may use any type of funds – Federal, State, local, or private funds – and still compete in the next competition. While normally the use of State or local government funds in a project would prevent future Federal funding, HUD does allow the use of State or local government funds as interim or emergency funding when they are used to continue an SHP project which was unsuccessful in seeking a renewal.

9. Are there any instances in which the scope of an SHP project may be reduced when it is renewed?

Yes. You may proportionately reduce or eliminate elements of the project and the SHP request. However, be aware that this project, as well as all projects, must meet all project threshold requirements as identified in the NOFA.

If the scope of a project is reduced, clearly indicate and fully describe in Section A, Project Narrative, in the application the following: Why it is necessary to reduce the scope of the project; which elements (housing units, services, etc.) of the project will remain and which will be reduced or eliminated; the number of persons served compared to the number in the original grant; and how the proportionate reduction in SHP funds was calculated.

10. Can a CoC decide not to request renewal funds for existing projects, or to give these projects a relatively low priority ranking?

Yes. The need for the continuation of previously funded projects should be considered in the local needs analysis process and a decision should be made locally on the priority to assign to the continuation of a project. HUD does not require that existing projects be renewed or given a higher priority than other projects. However, HUD is very concerned that the ongoing housing needs of persons currently being served by existing projects be taken into account as part of the decision-making process. The CoC should review each project at the time it seeks renewal to determine if the project is performing satisfactorily and is meeting the needs of persons it proposed to serve or whether local needs have changed and other subpopulations or types of assistance should be given preference.

11. What level of detail is needed to complete the Supportive Services and Operations Charts for renewal projects?

The charts enable you to include detailed information you already have available for renewal projects at the time of application, rather than at second submission. Requesting the detail normally included in the Technical Submission package streamlines your planning and eliminates duplication of effort following the conditional award.

12. How do I determine if my project is eligible for a S+C renewal?

Any S+C project whose grant term is expiring in calendar year 2004 and which is projected to run out of rental assistance funds in 2004 is eligible for renewal. (In addition, S+C grants that received an extension previously but which are projected to run out of funds in 2004 are also eligible.) The effective date of the grant (the date the agreement is executed by HUD) is the date used to determine whether the grant (including all of its TRA, PRA and SRA, and SRO component projects) is expiring.
