

that you file an extension request with the area CPD Field Office. Further, if the subtotal on Line 3 is zero or a residual amount that is less than one percent of the amount on Line 1, you are not eligible to apply for renewal funding under this notice. In reviewing the information that you provide in this chart, HUD will determine your eligibility for renewal funding based on financial records for reimbursement of expenditures that are filed under HUD's financial system (PAS).

(4) **HOPWA Renewal Budget.** Please complete the HOPWA Renewal Budget Form (Appendix A). See Part B, Section III, *Renewable Activities and Amount of Renewals*, for details on renewal funding.

(5) **HOPWA Renewal Project Form (Appendix A).** Complete the form including the following:

(a) **Project Sponsor.** You must identify any organization that will receive HOPWA funds as a project sponsor and the amount of funds to be received.

(b) **Non-profit Status.** If not previously submitted to HUD through the prior HOPWA application or if a change occurred in non-profit status, non-profit grantees or project sponsors must submit documentation verifying your non-profit status, as outlined under Part A, Section VII (A).

(c) **Service Areas.** Your application must identify the area(s) in which you are proposing to offer housing and other assistance.

(6) **Statutory Certifications.** The renewal application should include the required certifications as described under Part A, Section VI, *Statutory Certifications*. After your entire application is assembled, please mark each exhibit with an appropriately numbered tab and number every page of the application sequentially. Complete the HOPWA Renewal Application Checklist found in Appendix A to this Program Section of the SuperNOFA. Attach the HOPWA Renewal Application Checklist to the front of your application.

V. Additional Renewal Information

As an applicant of renewal funding, you are encouraged to read Part A: General Program Requirements at the beginning of this Program Section. This section outlines submission details, technical assistance, and statutory requirements for using HOPWA funds.

PART C: FEDERAL COLLABORATION WITH CDC TO STUDY THE CONNECTION OF HOUSING AND HIV

I. Purpose

This notice implements an initiative by the Department of Housing and Urban Development (HUD) and the

Centers for Disease Control and Prevention (CDC), Study the Connection of Housing and HIV. The study will provide scientific insight into the housing and medical challenges of persons who are living with HIV/AIDS who are unstably housed. Under Part C of the HOPWA program notice, HUD is establishing our part of the collaboration with the CDC in a competitive award for Special Projects of National Significance (SPNS). Due to its innovative nature and potential for replication, the study is likely to serve as an effective model for analyzing the impact of tenant-based rental assistance on the progression of HIV disease in eligible persons that are homeless or unstably housed.

HUD's Office of Community Planning and Development, Office of HIV/AIDS Housing, and Office of Policy Development and Research will work with the Centers for Disease Control and Prevention, National Center for HIV/SDT/TB Prevention, Division of HIV/AIDS Prevention, on this research. The effort will study the effects of stable housing on the progression of HIV disease for persons with HIV/AIDS as well as its effects on the prevention of HIV infection on similar socio-economic populations. HUD and the CDC propose to coordinate the evaluation of project grants under HUD's Housing Opportunities for Persons With AIDS (HOPWA) Program and the CDC's HIV Prevention programs. Over a three-year period, the collaboration will systematically test the impact of providing housing for eligible persons on HIV risk behavior among HIV affected individuals. It will also test the impact of housing and prevention services on HIV negative family members residing with the HOPWA eligible persons as against an unhoused comparison group. The comparison group will receive referrals to case management and HIV prevention intervention funded by CDC or through access to related health care programs that provide HIV prevention services, treatment adherence programs and periodic health assessments, including the use of blood draws to measure HIV health status. Protocols for these activities and information on required client consent for participation will be available from CDC. Personal information on study participants will remain confidential, although related nonpersonal aggregated data will be used as part of the study. Study participants will not be subject to any experimental treatments under this study. A cost-benefit analysis will comprise one new and important aspect of the research.

HUD expects that the housing assistance provided to the participating eligible persons in this grant will be coordinated with resources from other sources, including the use of HOPWA formula and competitive projects or other federal, state and local, private funds, in conjunction with related health-care and other supportive services funded under the Ryan White CARE Act. Given the amount of housing assistance funds available under this award, HUD encouraged interested applicants to fund supportive services activities from non-HOPWA sources.

II. Eligible Applicants

To apply, you must:

- (A) Be a formula grantee;
- (B) be in good standing, as defined below at Section V(A)(2);
- (C) at the time of application and for a minimum period of two years prior, have administered formula funds for tenant-based rental assistance in compliance with 24 CFR 574.320;
- (D) have an unmet housing need of at least 500 eligible persons and at least 187 housing units available for those eligible persons within your jurisdiction; and
- (E) be able to provide a comparison group of at least 187 unhoused eligible persons for the CDC study throughout the study period. Note that members of the comparison group may not be required to remain unhoused in order to participate in this study. Comparison group members will be eligible to receive housing or supportive services as they become available within the jurisdiction.

III. Study Requirements

HUD has established the following requirements:

- (A) Housing placement will be carried out via an open enrollment method (e.g. lottery or random election process).
- (B) Under the supervision of the CDC or its contractor, grantees will facilitate and support collection of extensive outcome evaluation data, facilitate client involvement in HIV/AIDS prevention and treatment adherence programs, facilitate periodic client health assessment done by the CDC and research staff, participate in a multi-site collaboration, and facilitate eligible persons' awareness of the study and the option to participate for the clients who meet the research study eligibility criteria. In connection with any data collection activities, grantees will be required to obtain the eligible person's consent before disclosing to the CDC or its contractor any personally identifiable information about the person, including,
