

PROGRAM EVALUATION LOGIC MODEL

EXAMPLE: Rental Assistance

Target Population: HIV/AIDS eligible persons and their families who live in project-based or scattered site housing units funded by HOPWA and who are in need of financial assistance in order to maintain housing.

Program Theory: Providing direct financial resources will assist eligible persons in stabilizing their living situations and will increase the chances of their maintaining and achieving self-sufficiency, ultimately preventing homelessness.

* Required HOPWA output measures on the number of units of housing, by type, assisted during each project operating year.
