III. Public Comment Procedures

We are reopening the comment period on the Kansas program amendment to provide you an opportunity to reconsider the adequacy of the amendment. Under the provisions of 30 CFR 732.17(h) and 884.15(a), we are requesting comments on whether the amendment satisfies the program approval criteria of 30 CFR 732.15 and 884.14. If we approve the amendment, it will become part of the Kansas program.

IV. Procedural Determinations

Executive Order 12630—Takings

In this rule, the State is proposing valid existing rights standards that are similar to the standards in the Federal definition at 30 CFR 761.5. Therefore, this rule has the same takings implications as the Federal valid existing rights rule. The takings implications assessment for the Federal valid existing rights rule appears in part XXIX.E of the preamble to that rule. See 64 FR 70766, 70822-27, December 17, 1999. The provisions in the rule based on other counterpart Federal regulations do not have takings implications. This determination is based on the analysis performed for the counterpart Federal regulations.

Executive Order 12866—Regulatory Planning and Review

This rule is exempted from review by the Office of Management and Budget under Executive Order 12866.

Executive Order 12988—Civil Justice Reform

The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12988 and has determined that this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments because each program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and the Federal regulations at 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR parts 730, 731, and 732 have been met. These standards are also not applicable to the actual language of State and tribal abandoned mine land reclamation plans and plan amendments because each plan is drafted and promulgated by a specific State or tribe, not by OSM. Decisions on proposed abandoned mine land reclamation plans and plan

amendments submitted by a State or tribe are based solely on a determination of whether the submittal meets the requirements of title IV of SMCRA (30 U.S.C. 1231-1243) and 30 CFR part 884 of the Federal regulations.

Executive Order 13132—Federalism

This rule does not have federalism implications. SMCRA delineates the roles of the Federal and State governments with regard to the regulation of surface coal mining and reclamation operations. One of the purposes of SMCRA is to "establish a nationwide program to protect society and the environment from the adverse effects of surface coal mining operations." Section 503(a)(1) of SMCRA requires that State laws regulating surface coal mining and reclamation operations be "in accordance with" the requirements of SMCRA. Section 503(a)(7) requires that State programs contain rules and regulations "consistent with" regulations issued by the Secretary pursuant to SMCRA. Section 405(d) of SMCRA requires State abandoned mine reclamation programs to be in compliance with the procedures, guidelines, and requirements established under SMCRA.

Executive Order 13211—Regulations That Significantly Affect the Supply, Distribution, or Use of Energy

On May 18, 2001, the President issued Executive Order 13211 which requires agencies to prepare a Statement of Energy Effects for a rule that is (1) considered significant under Executive Order 12866, and (2) likely to have a significant adverse effect on the supply, distribution, or use of energy. Because this rule is exempt from review under Executive Order 12866 and is not expected to have a significant adverse effect on the supply, distribution, or use of energy, a Statement of Energy Effects is not required.

National Environmental Policy Act

This rule does not require an environmental impact statement because section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)). Also agency decisions on proposed State and tribal abandoned mine land reclamation plans and plan amendments are categorically excluded from compliance with the National Environmental Policy Act (42 U.S.C. 4332) by the Manual of the Department
