Estimated total number of potential respondents: 150.

Frequency of response: As needed.

Estimated total/average number of responses for each respondent: 1.

Estimated total annual burden hours: 258,900.

Estimated total annual burden costs: \$23,435,700.

Changes in the ICR Since the Last Approval: The total estimated annual respondent cost for this ICR has increased \$1,305,700 (from \$22,130,000 to \$23,435,700), due mainly to the update in the loaded hourly labor rates used to calculate the costs. This increase is explained more fully in the ICR.

According to the procedures prescribed in 5 CFR 1320.12, EPA has submitted this ICR to OMB for review and approval. Any comments related to the renewal of this ICR should be submitted within 30 days of this notice, as described above.
