Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.5 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Secondary Lead Smelters.

Estimated Number of Respondents: 25.

Frequency of Response: Initial startup, construction, reconstruction and modification.

Estimated Total Annual Hour Burden: 38 hours.

Estimated Total Capital and Operations & Maintenance (O & M) Annual Costs: None.

Changes in the Estimates: There is an increase of three hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR burdens. This is due to an increased recognition of the time required to perform some tasks. Labor rates have also increased.
