Approval and Promulgation of Air Quality Implementation Plans; Maine; Total Reduced Sulfur From Kraft Paper Mills

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to Maine's plan for controlling air pollution according to section 111(d) of the Clean Air Act (*i.e.* a "111(d) plan"). This revision changes state regulations controlling the emission of total reduced sulfur (TRS) from existing kraft paper mills. In the Final Rules section of this **Federal Register**, EPA is approving the State's submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

DATES: Written comments must be received on or before June 2, 2003.

ADDRESSES: Comments may be mailed to Steve Rapp, Unit Manager, Air Permits, Toxics, and Indoor Programs Unit, Office of Ecosystem Protection (mail code CAP), U.S. Environmental Protection Agency, EPA-New England, One Congress Street, Suite 1100, Boston, MA 02114-2023. Copies of the State submittal and EPA's technical support document are available for public inspection during normal business hours, by appointment at the Office of Ecosystem Protection, U.S. Environmental Protection Agency, EPA-New England, One Congress Street, 11th floor, Boston, MA and the Bureau of Air Quality Control, Department of Environmental Protection, First Floor of the Tyson Building, Augusta Mental Health Institute Complex, Augusta, ME 04333-0017.

Pipeline Safety: Liquefied Natural Gas Facilities: Clarifying and Updating Safety Standards

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to clarify application of RSPA's safety standards for operation, maintenance, and fire protection of liquefied natural gas (LNG) facilities to certain existing facilities. In addition, this notice proposes to revise standards that contain incorrect cross-references, clarify training standards, and require annual reviews of plans and procedures. This notice also proposes to update present references to the National Fire Protection Association (NFPA) 59A standard to the 2001 edition of that standard. These actions are needed to remove ambiguities, assure that plans and procedures are up-

to-date, and modernize present references to NFPA 59A. The changes would improve the clarity and effectiveness of RSPA's LNG facility safety standards.

DATES: Persons interested in submitting written comments on the rules proposed in this notice must do so by June 30, 2003. Late filed comments will be considered so far as practicable.

ADDRESSES: You may submit written comments by mailing or delivering an original and two copies to the Dockets Facility, U.S. Department of Transportation, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590-0001.
