

listing criteria for common and preferred stocks, bonds, debentures, or warrants.³ The Amex proposes to list for trading under Section 107A of the Company Guide, asset-backed securities (the "ABS Securities") representing ownership interest in the Select Income Trust 2003-02 ("Trust"),⁴ a special purpose entity to be formed by Structured Obligations Corporation ("SOC"),⁵ and the trustee of the Trust pursuant to a trust agreement, which will be entered into on the date that the ABS Securities are issued. The assets of the Trust will consist primarily of a basket or portfolio of up to approximately twenty-five investment-grade fixed-income securities (the "Underlying Corporate Bonds") and the United States Department of the Treasury STRIPS or securities issued by the United States Department of the Treasury (the "Treasury Securities") or government sponsored entity securities (the "GSE Securities"). In the aggregate, component securities will be referred to as the "Underlying Securities."

The ABS Securities will conform to the initial listing guidelines under Section 107A⁶ and continued listing guidelines under Sections 1001-1003⁷

³ See Securities Exchange Act Release No. 27753 (March 1, 1990), 55 FR 8626 (March 8, 1990) (order approving File No. SR-Amex-89-29).

⁴ Telephone Conversation between Jeffrey P. Burns, Assistant General Counsel, Amex, and Geoffrey Pemble, Special Counsel, Division, Commission, on April 23, 2003.

⁵ SOC is a wholly-owned special purpose entity of J.P. Morgan Securities Holdings Inc. and the registrant under the Form S-3 Registration Statement (No. 333-70730) under which the securities will be issued.

⁶ The initial listing standards for the ABS Securities require: (1) A minimum public distribution of one million units; (2) a minimum of 400 shareholders; (3) a market value of at least \$4 million; and (4) a term of at least one year. However, if traded in thousand dollar denominations, then there is no minimum holder requirement. In addition, the listing guidelines provide that the issuer have assets in excess of \$100 million, stockholder's equity of at least \$10 million, and pre-tax income of at least \$750,000 in the last fiscal year or in two of the three prior fiscal years. In the case of an issuer which is unable to satisfy the earning criteria stated in Section 101 of the Company Guide, the Exchange will require the issuer to have the following: (1) Assets in excess of \$200 million and stockholders' equity of at least \$10 million; or (2) assets in excess of \$100 million and stockholders' equity of at least \$20 million.

⁷ The Exchange's continued listing guidelines are set forth in Sections 1001 through 1003 of Part 10 to the Exchange's Company Guide. Section 1002(b) of the Company Guide states that the Exchange will consider removing from listing any security where, in the opinion of the Exchange, it appears that the extent of public distribution or aggregate market value has become so reduced to make further dealings on the Exchange inadvisable. With respect to continued listing guidelines for distribution of the ABS Securities, the Exchange will rely on the guidelines for bonds in Section 1003(b)(iv). Section 1003(b)(iv)(A) provides that the Exchange will normally consider suspending dealings in, or

of the Company Guide, except for the assets and stockholder equity characteristics of the Trust. At the time of issuance, the ABS Securities will receive an investment grade rating from a nationally recognized securities rating organization (an "NRSRO"). The issuance of the ABS Securities will be a repackaging of the Underlying Corporate Bonds together with the addition of either Treasury Securities or GSE Securities,⁸ with the obligation of the Trust to make distributions to holders of the ABS Securities depending on the amount of distributions received by the Trust on the Underlying Securities. However, due to the pass-through and passive nature of the ABS Securities, the Exchange intends to rely on the assets and stockholder equity of the issuers of the Underlying Corporate Bonds as well as GSE Securities, rather than the Trust to meet the requirement in Section 107A of the Company Guide. The corporate issuers of the Underlying Corporate Bonds and GSE Securities will meet or exceed the requirements of Section 107A of the Company Guide. The distribution and principal amount/aggregate market value requirements found in Sections 107A(b) and (c), respectively, will otherwise be met by the Trust as issuer of the ABS Securities.⁹ In addition, the Exchange for purposes of including Treasury Securities will rely on the fact that the issuer is the U.S. Government rather than the asset and stockholder tests found in Section 107A.

The basket of Underlying Securities will not be managed and will generally remain static over the term of the ABS Securities. Each of the Underlying Securities provide for the payment of interest on a semi-annual basis, but the ABS Securities will provide for monthly or quarterly distributions of interest. Neither the Treasury Securities or GSE Securities will make periodic payments of interest.¹⁰ The Exchange represents

removing from the list, a security if the aggregate market value or the principal amount of bonds publicly held is less than \$400,000.

⁸ A GSE Security is a security that is issued by a government-sponsored entity such as Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac), Student Loan Marketing Association (Sallie Mae), the Federal Home Loan Banks and the Federal Farm Credit Banks. All GSE debt is sponsored but not guaranteed by the federal government, whereas government agencies such as Government National Mortgage Association (Ginnie Mae) are divisions of the U.S. government whose securities are backed by the full faith and credit of the U.S.

¹⁰ A stripped fixed income security, such as a Treasury Security or GSE Security, is a security that

that, to alleviate this cash flow timing issue, the Trust will enter into an interest distribution agreement (the "Interest Distribution Agreement") as described in the prospectus supplement related to the ABS Securities (the "Prospectus Supplement").¹¹ Principal distributions on the ABS Securities are expected to be made on dates that correspond to the maturity dates of the Underlying Securities (*i.e.*, the Underlying Corporate Bonds and Treasury Securities or GSE Securities). However, some of the Underlying Securities may have redemption provisions and in the event of an early redemption or other liquidation (*e.g.*, upon an event of default) of the Underlying Securities, the proceeds from such redemption (including any make-whole premium associated with such redemption) or liquidation will be distributed pro rata to the holders of the ABS Securities. Each Underlying Corporate Bond will be issued by a corporate issuer and purchased in the secondary market.

In the case of Treasury Securities, the trust will either purchase the securities directly from primary dealers or in the secondary market which consists of primary dealers, non-primary dealers, customers, financial institutions, non-financial institutions and individuals. Similarly, in the case of GSE Securities, the trust will either purchase the securities directly from the issuer or in the secondary market.

Holders of the ABS Securities generally will receive interest on the face value in an amount to be determined at the time of issuance of the ABS Securities and disclosed to investors. The rate of interest payments will be based upon prevailing interest rates at the time of issuance and interest payments will be made to the extent that coupon payments are received from the Underlying Securities. Distributions of interest will be made monthly or quarterly. Investors will also be entitled to be repaid the principal of their ABS Securities from the proceeds of the principal payments on the Underlying Securities. The payout or return to

is separated into its periodic interest payments and principal repayment. The separate strips are then sold individually as zero coupon securities providing investors with a wide choice of alternative maturities.

¹¹ Pursuant to the Interest Distribution Agreement, shortfalls in the amounts available to pay monthly or quarterly interest to holders of the ABS Securities due to the Underlying Securities paying interest semi-annually will be made to the Trust by JP Morgan Chase Bank or one of its affiliates and will be repaid out of future cash flow received by the Trust from the Underlying Securities.
