Texas: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Immediate final rule; technical corrections.

SUMMARY: The State of Texas has applied for Final authorization to revise its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). The EPA reviewed Texas' application and decided that its hazardous waste program revision satisfies all of the requirements necessary to qualify for final authorization. As such, EPA published an immediate final rule on April 15, 2003 for a 30-day public review and comment period. The comment period will run until close of business May 15, 2003. Today's publication is a technical correction to the State Analog chart, listing the State regulations that are equivalent to the Federal rules.

DATES: This technical correction is in regard to the preamble of an immediate

final rule which will become effective June 16, 2003.

SUPPLEMENTARY INFORMATION:**A. Technical Corrections**

There were printing errors which inadvertently deleted some of the State's regulatory citations from the State's Texas Commission on Environmental Quality (TCEQ) **Federal Register** notice published on April 15, 2003, 68 FR 18126-18133, that notice listed the State's regulations that are equivalent to the rules promulgated to the Federal RCRA implementing regulations in 40 CFR parts 124, 260-268, 270, 273 and 279. Some of the State regulations in that chart were deleted and the following chart lists the correct citations of the State analogs that are being recognized as equivalent to the appropriate Federal requirements.
