## NUCLEAR REGULATORY COMMISSION

**[Docket Nos. (as shown in Attachment 1); License Nos. (as shown in Attachment 1); EA-03-086]**

### All Operating Power Reactor Licensees; Order Modifying Licenses (Effective Immediately)

The licensees identified in Attachment 1 to this Order hold licenses issued by the U.S. Nuclear Regulatory Commission (NRC or the Commission) authorizing operation of nuclear power plants in accordance with the Atomic Energy Act of 1954 and Title 10 of the *Code of Federal Regulations* (10 CFR) part 50. Commission regulations at 10 CFR 50.54(p)(1) require these licensees to maintain safeguards contingency plan procedures in accordance with 10 CFR part 73, Appendix C. Specific safeguards requirements for reactors are contained in 10 CFR 73.55.

On September 11, 2001, terrorists simultaneously attacked targets in New York, NY, and Washington, DC, utilizing large commercial aircraft as weapons. In response to the attacks and intelligence information subsequently obtained, the Commission issued a number of Safeguards and Threat Advisories to its licensees, and eventually Orders to selected licensees, to strengthen licensees' capabilities and readiness to respond to a potential attack on a nuclear facility. The Commission has also communicated with other Federal, State and local government agencies and industry representatives to discuss and evaluate the current threat environment in order to assess the nature of the current threat. In addition, the Commission has been conducting a comprehensive review of its safeguards and security programs and requirements. As part of this review, the Commission issued Orders to the licensees of all operating power reactors on February 25, 2002, to implement interim compensatory measures (ICMs) to enhance physical security of licensed operations at these facilities. In addition, the Commission issued Orders to all operating power reactor licensees on January 7, 2003, to enhance access authorization requirements.

As a result of information provided by the intelligence community concerning the nature of the threat and the Commission's assessment of this
