SUPPLEMENTARY INFORMATION:

Background

On February 27, 2003, the Department received a letter from Nucor requesting an administrative review of the countervailing order on CTL Plate from Korea. On March 25, 2003, the Department initiated an administrative review of this order for the period January 1, 2002 through December 31, 2002. Nucor submitted a letter dated March 24, 2003, withdrawing its request for the above referenced administrative review.

Scope of the Review

For purposes of this administrative review, the products covered are certain hot-rolled carbon-quality steel: (1) Universal mill plates (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm but not exceeding 1250 mm, and of a nominal or actual thickness of not less than 4 mm, which are cut-to-length (not in coils) and without patterns in relief), of iron or non-alloy-quality steel; and (2) flat-rolled products, hot-rolled, of a nominal or actual thickness of 4.75 mm or more and of a width which exceeds 150 mm and measures at least twice the thickness, and which are cut-to-length (not in coils). Steel products to be included in the scope of this order are of rectangular, square, circular or other shape and of rectangular or non-rectangular cross-section where such non-rectangular cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been "worked after rolling")—for example, products which have been beveled or
