

plan and that are planted for the purpose of reducing wind erosion, controlling snow, improving wildlife habitat, or conserving energy.

Filter strip means a strip or area of vegetation adjacent to a body of water the purpose of which is to remove nutrients, sediment, organic matter, pesticides, and other pollutants from surface runoff and subsurface flow by deposition, absorption, plant uptake, and other processes, thereby reducing pollution and protecting surface water and subsurface water quality and of a width determined appropriate for the purpose by the Deputy Administrator.

Highly Erodible Land (HEL) means land determined to have an EI equal to or greater than 8 on the acreage offered.

Infeasible to farm means an area that is too small or isolated to be economically farmed, as determined by the Deputy Administrator.

Landlord means a person who rents or leases acreage to another person.

Local FSA office means the FSA office serving the area in which the FSA records are located for the farm or ranch.

Offer means, unless the context indicates otherwise, if required by CCC, the per-acre rental payment requested by the owner or operator in such owner's or operator's request to participate in the CRP.

Offeror means an eligible person as determined by CCC who submits an offer of eligible acreage for enrollment into the CRP to enter into a CRP contract.

Operator means a person who is in general control of the farming operation on the farm, as determined by CCC.

Payment period means the 10- to 15-year contract period for which the participant receives an annual rental payment.

Perennial crop means an agricultural commodity that is produced from the same root structure for two or more years, as determined by CCC.

Permanent vegetative cover means perennial stands of approved combinations of certain grasses, legumes, forbs, shrubs and trees with a life span of 10 or more years.

Permanent wildlife habitat means a vegetative cover with the specific purpose of providing habitat, food, or cover for wildlife and protecting other environmental concerns for the life of the contract.

Practice means a conservation, wildlife habitat, or water quality measure with appropriate operations and management as agreed to in the conservation plan to accomplish the desired program objectives according to CRP and FOTG standards and

specifications as a part of a conservation management system.

Riparian buffer means a strip or area of vegetation adjacent to a river or stream of sufficient width as determined by the Deputy Administrator to remove nutrients, sediment, organic matter, pesticides, and other pollutants from surface runoff and subsurface flow by deposition, absorption, plant uptake, and other processes, thereby reducing pollution and protecting surface water and subsurface water quality, which are also intended to provide shade to reduce water temperature for improved habitat for aquatic organisms and supply large woody debris for aquatic organisms and habitat for wildlife.

Soil loss tolerance (T) means the maximum average annual erosion rate specified in the FOTG that will not adversely impact the long-term productivity of the soil.

State means State agencies, departments, districts, county or city governments, municipalities or any other State or local government of the State.

State Technical Committee means a committee established pursuant to part 610 of this chapter to provide information, analysis, and recommendations to the U.S. Department of Agriculture.

State water quality priority areas means any area so designated by the State committee, in consultation with the State Technical Committee, where agricultural pollutants contribute to water degradation or create the potential for failure to meet applicable water quality standards or the goals and requirements of Federal or State water quality laws. These areas may include areas designated under section 319 of the Federal Water Pollution Control Act (33 U.S.C. 1329) as water quality protection areas, sole source aquifers or other designated areas that result from agricultural nonpoint sources of pollution. Acreage in these areas may be determined eligible as conservation priority areas.

Technical assistance means the assistance provided in connection with the CRP to owners or operators as approved by CCC, for developing conservation and/or tree planting plans, determining the eligibility of land and practices, implementing and certifying practices, and ensuring contract performance.

Violation means an act by the participant, either intentional or unintentional, that would cause the participant to no longer be eligible for all or a portion of cost-share, incentive, or annual contract payments.

Water Bank Program (WBP) means the program authorized by the Water Bank Act of 1970, as amended, in which eligible persons enter into 10-year agreements to preserve, restore, and improve wetlands.

Water cover means flooding of land by water either to develop or restore shallow water areas for wildlife or wetlands, or as a result of a natural disaster.

Wellhead protection area means the area designated by EPA or the appropriate State agency with an Environmental Protection Agency approved Wellhead Protection Program for water being drawn for public use, as defined for public use by the Safe Drinking Water Act, as amended.

Wetland means land defined as wetland in accordance with provisions of part 12 of this title.

Wetlands farmed under natural conditions means land defined as wetlands farmed under natural conditions in accordance with provisions of part 12 of this title.

Wetlands Reserve Program (WRP) means the program authorized by part 1467 of this chapter in which eligible persons enter into long-term agreements to restore and protect wetlands.

§ 1410.3 General description.

(a) Under the CRP, CCC will enter into contracts with eligible participants to convert eligible land to a conserving use during the contract period in return for financial and technical assistance.

(b) A participant must obtain and adhere to a conservation plan prepared in accordance with CRP guidelines, as established and determined by CCC. A conservation plan for eligible acreage must be obtained by a participant and must be approved by the conservation district in which the lands are located unless the conservation district declines to review the plan, in which case the provider of technical assistance may take such further action as is needed to account for lack of such review.

(c) The objectives of the CRP are to cost-effectively reduce water and wind erosion, protect the Nation's long-term capability to produce food and fiber, reduce sedimentation, improve water quality, create and enhance wildlife habitat, and other objectives including encouraging more permanent conservation practices and tree planting.

(d) Except as otherwise provided, a participant may, in addition to any payments under this part, receive cost-share assistance, rental or easement payments, tax benefits, or other payments from a State or a private organization in return for enrolling lands in CRP. However, a participant
