

energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We have considered the environmental impact of these rules and concluded that, under figure 2-1, paragraph (34)(g), of Commandant Instruction M16475.1D, these rules are categorically excluded from further environmental documentation because our action is limited to the expansion of existing security zones. The U.S. Navy has separately considered the impact of their proposed project including the placement of anti-small boat barrier booms. While we reviewed the Navy's environmental documentation, our analysis pertains solely to the expanded placement of the small markers designating the security zones already in the waterway. A final "Environmental Analysis Check List" and a final "Categorical Exclusion Determination" are available in the docket where indicated under ADDRESSES.
