(82) The frequency may be assigned only to entities meeting the definition of a forest product licensee (see § 90.7). Operations are on a secondary basis to Federal Government operations including experimental stations, will not exceed 150 watts output power, and are limited to the states of Washington,

Oregon, Maine, North Carolina, South Carolina, Tennessee, Georgia, Florida, Alabama, Mississippi, Louisiana, and Texas (eastern portion).

19. Section 90.103 is amended by revising the kilohertz section of the table in paragraph (b), by revising

paragraph (c)(4), by removing paragraphs (c)(28) and (c)(29), and by redesignating paragraphs (c)(30) and (c)(31) as paragraphs (c)(28) and (c)(29) to read as follows:

**§ 90.103 Radiolocation Service.**

■ 20. Section 90.263 is revised to read as follows:

**§ 90.263 Substitution of frequencies below 25 MHz.**

Frequencies below 25 MHz when shown in the radio pool frequency listings under this part will be assigned to base or mobile stations only upon a satisfactory showing that, from a safety of life standpoint, frequencies above 25 MHz will not meet the operational requirements of the applicant. These

frequencies are available for assignment in many areas; however, in individual cases such assignment may be impracticable due to conflicting frequency use authorized to stations in other services by this and other countries. In such cases, a substitute frequency, if found to be available, may be assigned from the following bands: 1705–1750 kHz, 2107–2170 kHz, 2194–
