

SUPPLEMENTARY INFORMATION: This notice implements the permanent special local regulation governing the 2003 Harvard-Yale Regatta. A portion of the Thames River in New London, Connecticut will be closed during the effective period to all vessel traffic except participants, official regatta vessels, and patrol craft. The regulated area is that area of the river between the Penn Central drawbridge and Bartlett's Cove. Additional public notification will be made via the First Coast Guard District Local Notice to Mariners and marine safety broadcasts. The full text of this regulation is found in 33 CFR 100.101.

Dated: April 25, 2003.

Vivien S. Crea,

Rear Admiral, U.S. Coast Guard, Commander, First Coast Guard District.

Special Local Regulations for Marine Events; Severn River, College Creek, and Weems Creek, Annapolis, MD

AGENCY: Coast Guard, DHS.

ACTION: Notice of implementation.

SUMMARY: The Coast Guard is implementing the special local regulations at 33 CFR 100.518 for the U.S. Naval Academy Blue Angels Airshow to be held May 20 and 21, 2003, over the waters of the Severn River at Annapolis, Maryland. These special local regulations are necessary to control vessel traffic due to the confined nature of the waterway and expected vessel congestion during the events. The effect will be to restrict general navigation in the regulated area for the safety of spectators and vessels transiting the event area.

EFFECTIVE DATES: 33 CFR 100.518 is effective from 10:30 a.m. to 4 p.m. on May 20 and 21, 2003.

FOR FURTHER INFORMATION CONTACT: Ron Houck, Marine Information Specialist, Commander, Coast Guard Activities Baltimore, 2401 Hawkins Point Road, Baltimore, MD 21226-1971, (410) 576-2674.

SUPPLEMENTARY INFORMATION: The U.S. Naval Academy will sponsor the Blue

Angels Airshow over the waters of the Severn River at Annapolis, Maryland. The events will consist of low flying, high performance aircraft performing precision maneuvers and aerial stunts. A fleet of spectator vessels is expected to gather near the event site to view the event. In order to ensure the safety of participants, spectators and transiting vessels, 33 CFR 100.518 will be in effect for the duration of the event. Under provisions of 33 CFR 100.518, vessels may not enter the regulated area without permission from the Coast Guard Patrol Commander. Spectator vessels may anchor outside the regulated area but may not block a navigable channel. Because these restrictions will only be in effect for a limited period, they should not result in a significant disruption of maritime traffic.

Dated: April 22, 2003.

Sally Brice-O'Hara,

Rear Admiral, U.S. Coast Guard, Commander, Fifth Coast Guard District.

[CGD01-03-040]

Drawbridge Operation Regulations: Cape Cod Canal, MA

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the drawbridge operation regulations that govern the Conrail Railroad Bridge across Cape Cod Canal, mile 0.7, at Bourne, Massachusetts. This temporary deviation will allow the bridge to remain in the closed position from 6 a.m. through 1 p.m. on May 22, 2003 and May 27, 2003. This temporary deviation is necessary to facilitate scheduled structural repairs at the bridge.

DATES: This deviation is effective from May 22, 2003 through May 27, 2003.

ADDRESSES: Materials referred to in this document are available for inspection or copying at the First Coast Guard District, Bridge Branch Office, 408 Atlantic Avenue, Boston, Massachusetts, 02110, between 7 a.m. and 3 p.m., Monday through Friday, except Federal holidays. The telephone number is (617) 223-8364. The First

Coast Guard District Bridge Branch maintains the public docket for this temporary deviation.

FOR FURTHER INFORMATION CONTACT: Mr. John McDonald, Project Officer, First Coast Guard District Bridge Branch, (617) 223-8364.

SUPPLEMENTARY INFORMATION: The vertical clearance under the Conrail Railroad Bridge in the open position is 135 feet at mean high water and 139 feet at mean low water. The draw is normally in the fully open position except for the passage of rail traffic. The existing regulations are listed at 33 CFR 117.589.

The owner of the bridge, the U. S. Army Corps of Engineers (USACE), requested a temporary deviation from the Drawbridge Operation Regulations to facilitate scheduled maintenance, the replacement of the rail tracks, at the bridge. This work must be performed with the bridge in the closed position.

The mariners who normally use this waterway were advised about the necessary repairs at the bridge and the temporary closures that will be required in order to facilitate the repairs. No objections were received.

Under this temporary deviation the Conrail Railroad Bridge, mile 0.7, may remain in the closed position from 6 a.m. through 1 p.m. on May 22, 2003 and May 27, 2003.

Mariners may contact the U.S. Army Corps of Engineers Marine Traffic Controller 24-hour telephone line at (508) 759-4431 for the operational status of the bridge.

This deviation from the operating regulations is authorized under 33 CFR 117.35, and will be performed with all due speed in order to return the bridge to normal operation as soon as possible.

Dated: May 7, 2003.

Vivien S. Crea,

Rear Admiral, U.S. Coast Guard, Commander, First Coast Guard District.
