

operable, and the schedule when the requested information will be submitted.

The required written response should be addressed to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, 11555 Rockville Pike, Rockville, Maryland 20852, under oath or affirmation under the provisions of section 182a of the Atomic Energy Act of 1954, as amended, and 10 CFR 50.54(f). In addition, submit a copy of the response to the appropriate regional administrator.

Reasons for Requested Information

This generic letter requests that addressees submit information. The requested information will enable the NRC staff to make a determination as to whether licensees are implementing SG tube inspections in accordance with applicable requirements. In cases where licensees are not implementing inspections in such a manner, the requested information will allow the staff to make a determination as to the adequacy of the licensee's inspection program and compliance of the licensee's program relative to existing requirements (the plant TS in conjunction with 10 CFR part 50, Appendix B).

Backfit Discussion

Under the provisions of section 182a of the Atomic Energy Act of 1954, as amended, and 10 CFR 50.54(f), this generic letter transmits an information request for the purpose of verifying compliance with applicable existing requirements. Specifically, the requested information will enable the NRC staff to determine whether applicable requirements (plant TS in conjunction with 10 CFR part 50, Appendix B) are being met. No backfit is either intended or approved in the context of issuance of this generic letter. Therefore, the staff has not performed a backfit analysis.

Federal Register Notification

To be done after the public comment period.

Paperwork Reduction Act Statement

This generic letter contains information collections that are subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). These information collections were approved by the Office of Management and Budget (OMB), control number 3150-0011, which expires on January 31, 2004.

The burden to the public for these information collections is estimated to average 60 hours per response,

including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The U.S. Nuclear Regulatory Commission is seeking public comment on the potential impact of the collection of information contained in the generic letter and on the following issues:

(1) Is the proposed collection of information necessary for the proper performance of the functions of the NRC, and will the information have practical utility?

(2) Is the estimate of burden accurate?

(3) Is there a way to enhance the quality, utility, and clarity of the information to be collected?

(4) How can the burden of the collection of information be minimized? Can automated collection techniques be used?

Send comments regarding this burden estimate or on any other aspect of these information collections, including suggestions for reducing the burden, to the Information and Records Management Branch (T-6 E6), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet electronic mail to INFOCOLLECTS@nrc.gov; and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202 (3150-0011), Office of Management and Budget, Washington, DC 20503.

Public Protection Notification

The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

If you have any questions about this matter, please contact one of the persons listed below or the appropriate Office of Nuclear Reactor Regulation (NRR) project manager.

Attachments: 1. Sample Changes to the TS for Plants Limiting Inspections in the Tubesheet Region

Attachment 1

Sample Changes to the TS for Plants Limiting Inspections in the Tubesheet Region

Plugging Limit means the imperfection depth at or beyond which the tube shall be removed from service and is equal to 40% of the nominal tube wall thickness. All tubes with degradation in the portion of the tube from x-inches below the bottom of the expansion transition or the top of the tubesheet to the bottom of the expansion transition or the top of the tubesheet, whichever is lower, shall be removed from service.

Tube Inspection means an inspection of the steam generator tube from x-inches below the hot-leg expansion transition or the top of

tubesheet, whichever is lower, completely around the U-bend to the top support of the cold leg.

Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/NRC/ADAMS/index.html>. If you do not have access to ADAMS or if you have problems in accessing the documents in ADAMS, contact the NRC Public Document Room (PDR) reference staff at 1-800-397-4209 or 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated in Rockville, Maryland, this 8th day of May, 2003.

For the Nuclear Regulatory Commission.
William D. Beckner,

Program Director, Operating Reactor Improvements, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

Extension:

Rule 11a-3 [17 CFR 270.11a-3] SEC File No. 270-321 OMB Control No. 3235-0358.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 [44 U.S.C. 3501-3520], the Securities and Exchange Commission ("Commission") is soliciting comments on the collections of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget ("OMB") for extension and approval.

Rule 11a-3 under the Investment Company Act of 1940 [17 CFR 270.11a-3] is an exemptive rule that permits open-end investment companies ("funds"), other than insurance company separate accounts, and funds' principal underwriters, to make certain exchange offers to fund shareholders and shareholders of other funds in the same group of investment companies. The rule requires a fund, among other things, (i) to disclose in its prospectus and advertising literature the amount of any administrative or redemption fee
