■ 10. Amend § 76.1610 by revising the introductory text and paragraphs (a), (c), and (d) and adding paragraph (g) to read as follows:

**§ 76.1610 Change of operational information.**

The Operator shall inform the Commission on FCC Form 324 whenever there is a change of cable television system operator; change of legal name, change of the operator's mailing address or FCC Registration Number (FRN); or change in the operational status of a cable television system. Notification must be done within 30 days from the date the change occurs and must include the following information, as appropriate:

(a) The legal name of the operator and whether the operator is an individual, private association, partnership, corporation, or government entity. See § 76.5(cc). If the operator is a partnership, the legal name of the partner responsible for communications with the Commission shall be supplied;

\* \* \* \* \*

(c) The physical address, including zip code, and e-mail address, if applicable, to which all communications are to be directed;

(d) The nature of the operational status change (e.g., operation terminated, merged with another system, inactive, deleted, etc.);

\* \* \* \* \*

(g) The FCC Registration Number (FRN).

■ 11. Revise § 76.1801 to read as follows:

**§ 76.1801 Registration statement.**

(a) A system community unit shall be authorized to commence operation only after filing with the Commission the following information on FCC Form 322.

(1) The legal name of the operator, entity identification or social security number, and whether the operator is an individual, private association, partnership, or corporation. If the operator is a partnership, the legal name of the partner responsible for communications with the Commission shall be supplied;

(2) The assumed name (if any) used for doing business in the community;

(3) The mailing address, including zip code; e-mail address, if applicable; and telephone number to which communications are to be directed;

(4) The month and year the system began service to subscribers;

(5) The name of the community or area served and the county in which it is located;

(6) The television broadcast signals to be carried which previously have not been certified or registered; and

(7) The FCC Registration Number (FRN).

(b) Registration statements, FCC Form 322, shall be signed by the operator; by one of the partners, if the operator is a partnership; by an officer, if the operator is a corporation; by a member who is an officer, if the operator is an unincorporated association; or by any duly authorized employee of the operator.

(c) Registration statements, FCC Form 322, may be signed by the operator's attorney in case of the operator's physical disability or of his absence from the United States. The attorney shall in that event separately set forth the reasons why the registration statement was not signed by the operator. In addition, if any matter is stated on the basis of the attorney's belief only (rather than the attorney's knowledge), the attorney shall separately set forth the reasons for believing that such statements are true.

■ 12. Section § 76.1803 is revised to read as follows:

**§ 76.1803 Signal Leakage Monitoring.**

MVPDs subject to § 76.611 must submit the results of ground based measurements derived in accordance with § 76.611(a)(1) or airspace measurements derived in accordance with § 76.611(a)(2), including a description of the method by which compliance with basic signal leakage criteria is achieved and the method of

calibrating the measurement equipment. This information shall be provided to the Commission each calendar year via FCC Form 320.

■ 13. Section 76.1804 is revised to read as follows:

**§ 76.1804 Aeronautical frequencies: leakage monitoring (CLI).**

An MVPD shall notify the Commission before transmitting any carrier or other signal component with an average power level across a 25 kHz bandwidth in any 160 microsecond time period equal to or greater than  $10^{-4}$  watts at any point in the cable distribution system on any new frequency or frequencies in the aeronautical radio frequency bands (108–137 and 225–400 MHz). The notification shall be made on FCC Form 321. Such notification shall include:

(a) Legal name and local address of the MVPD;

(d) Carrier frequency, tolerance, and type of modulation of all carriers in the aeronautical bands at any location in the cable distribution system and the maximum of those average powers measured over a 2.5 kHz bandwidth as described in the introductory paragraph to this rule section;

(e) The geographical coordinates (in NAD83) of a point near the center of the system, together with the distance (in kilometers) from the designated point to the most remote point of the plant, existing or planned, that defines a circle enclosing the entire plant;

(f) Certification that the monitoring procedure used is in compliance with § 76.614 or description of the routine monitoring procedure to be used; and

(g) For MVPDs subject to § 76.611, the cumulative signal leakage index derived under § 76.611(a)(1) or the results of airspace measurements derived under § 76.611(a)(2), including a description of the method by which compliance with the basic signal leakage criteria is achieved and the method of calibrating the measurement equipment.

(h) Aeronautical Frequency Notifications, FCC Form 321, shall be personally signed either electronically or manually by the operator; by one of the partners, if the operator is a partnership; by an officer, if the operator is a corporation; by a member who is an
