In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for amendment to licenses for the Lewis River Hydroelectric Projects (Merwin P-935, Yale P-2071, Swift No. 1 P-2111, and Swift No. 2 P-2213), located on the North Fork Lewis River in Cowlitz, Clark, and Skamania counties, Washington and has prepared a Final Environmental Assessment (FEA) for the projects. No Federal lands are involved.

The FEA contains the staff's analysis of the potential environmental impacts of the projects and concludes that approving the amendments to the licenses, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the FEA is available for public inspection in the Public Reference Room of the Commission's offices at 888 First Street, NE., Washington, DC 20426. The FEA may also be viewed on the Internet at <http://www.ferc.gov> using the "FERRIS" link—select "Docket #" and follow the instructions. For assistance, please
