Fisheries of the Northeastern United States; Atlantic Mackerel, Squid, and Butterfish Fisheries; Control Date for Loligo and Illex Squid

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Advance notice of proposed rulemaking; notice of a control date for the purposes of controlling capacity in the commercial fishery for *Loligo* squid and discouraging speculative entry into the *Illex* commercial fishery.

SUMMARY: NMFS announces that it is considering and is seeking public comment on proposed rulemaking to control future access to the *Illex* (*Illex illecebrosus*) and *Loligo* (*Loligo pealei*) squid fisheries under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). This announcement is intended, in part, to discourage speculative entry and increases in effort or capacity in these fisheries while the Mid-Atlantic Fishery Management Council (Council) and NMFS consider alternative allocation schemes and whether and how to further control capacity in the *Illex* and *Loligo* fisheries. The date of publication of this document, May 20, 2003, shall be known as the "control date" and may be used for establishing eligibility criteria for determining levels of future access to the *Illex* and *Loligo* fisheries subject to Federal authority.

DATES: Written comments must be received on or before 5 p.m., local time, June 19, 2003.
