

(c) If the appeal decision does not grant in full the request for amendment, the decision letter will notify the data subject that he may:

(1) Obtain judicial review of the decision in accordance with the terms of the Privacy Act at 5 U.S.C. 552a(g); and

(2) File a statement setting forth his reasons for disagreeing with the decision.

(d)(1) A data subject's disagreement statement must be concise. The appropriate system manager has the authority to determine the "conciseness" of the statement, taking into account the scope of the disagreement and the complexity of the issues.

(2) In any disclosure of information about which an individual has filed a statement of disagreement, the appropriate system manager will clearly note any disputed portion(s) of the record(s) and will provide a copy of the statement to persons or other agencies to whom the disputed record or records has been disclosed and for whom an accounting of disclosure has been maintained. A concise statement of the reasons for not making the amendments requested may also be provided.

[CN-02-006]

RIN 0581-AC17

Revision of User Fees for 2003 Crop Cotton Classification Services to Growers

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: The Agricultural Marketing Service (AMS) is maintaining user fees for cotton producers for 2003 crop cotton classification services under the Cotton Statistics and Estimates Act at the same level as in 2002. This is in accordance with the formula provided in the Uniform Cotton Classing Fees Act of 1987. The 2002 user fee for this classification service was \$1.45 per bale. This final rule would maintain the fee for the 2003 crop at \$1.45 per bale. The fee and the existing reserve are sufficient to cover the costs of providing classification services, including costs for administration and supervision.

EFFECTIVE DATES: July 1, 2003.

FOR FURTHER INFORMATION CONTACT:

Norma McDill, Deputy Administrator, Cotton Program, AMS, USDA, Room 2641-S, STOP 0224, 1400 Independence Avenue, SW., Washington, DC 20250-0224. Telephone (202) 720-2145, facsimile (202) 690-1718, or e-mail norma.mcdill@usda.gov.

SUPPLEMENTARY INFORMATION:

A proposed rule detailing the revisions was published in the **Federal Register** on March 31, 2003. (68 FR 15385). A 15-day comment period was provided for interested persons to respond to the proposed rule. No comments were received and no changes have been made in the provisions of the final rule.

Executive Order 12866

This final rule has been determined to be not significant for purposes of Executive Order 12866; and, therefore has not been reviewed by the Office of Management and Budget (OMB).

Executive Order 12988

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect. This rule would not preempt any state or local laws, regulations, or policies unless they present an irreconcilable conflict with this rule. There are no administrative procedures that must be exhausted prior to any judicial challenge to the provisions of this rule.

Regulatory Flexibility Act

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) AMS has considered the economic impact of this action on small entities and has determined that its implementation will not have a significant economic impact on a substantial number of small businesses.

The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions so that small businesses will not be disproportionately burdened. There are an estimated 35,000 cotton growers in the U.S. who voluntarily use the AMS cotton classing services annually, and the majority of these cotton growers are small businesses under the criteria established by the Small Business Administration (13 CFR 121.601). Continuing the user fee at the 2002 crop level as stated will not significantly affect small businesses as defined in the RFA because:

(1) The fee represents a very small portion of the cost-per-unit currently borne by those entities utilizing the services. (The 2002 user fee for classification services was \$1.45 per bale; the fee for the 2003 crop will be

maintained at \$1.45 per bale; the 2003 crop is estimated at 17,200,000 bales).

(2) The fee for services will not affect competition in the marketplace; and

(3) The use of classification services is voluntary. For the 2002 crop, 17,145,000 bales were produced; and, virtually all of these bales were voluntarily submitted by growers for the classification service.

(4) Based on the average price paid to growers for cotton from the 2001 crop of 29.8 cents per pound, 500 pound bales of cotton are worth an average of \$149 each. The user fee for classification services, \$1.45 per bale, is less than one percent of the value of an average bale of cotton.

Paperwork Reduction Act

In compliance with OMB regulations (5 CFR part 1320), which implement the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), the information collection requirements contained in the provisions to be amended by this proposed rule have been previously approved by OMB and were assigned OMB control number 0581-0009 under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Fees for Classification Under the Cotton Statistics and Estimates Act of 1927

The user fee charged to cotton producers for High Volume Instrument (HVI) classification services under the Cotton Statistics and Estimates Act (7 U.S.C. 473a) was \$1.45 per bale during the 2002 harvest season as determined by using the formula provided in the Uniform Cotton Classing Fees Act of 1987, as amended by Public Law 102-237. The fees cover salaries, costs of equipment and supplies, and other overhead costs, including costs for administration, and supervision. These changes will be made effective July 1, 2003, as provided by the Cotton Statistics and Estimates Act.

This final rule establishes the user fee charged to producers for HVI classification at \$1.45 per bale during the 2003 harvest season.

Public Law 102-237 amended the formula in the Uniform Cotton Classing Fees Act of 1987 for establishing the producer's classification fee so that the producer's fee is based on the prevailing method of classification requested by producers during the previous year. HVI classing was the prevailing method of cotton classification requested by producers in 2002. Therefore, the 2003 producer's user fee for classification service is based on the 2002 base fee for HVI classification.

The fee was calculated by applying the formula specified in the Uniform
