Approval and Promulgation of State Plans for Designated Facilities and Pollutants: Vermont; Negative Declaration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is approving the sections 111(d) negative declaration submitted by the Vermont Department of Environmental Conservation (DEC) on August 20, 1996. This negative declaration adequately certifies that there are no existing municipal solid waste (MSW) landfills located in the state of Vermont that have accepted waste since November 8, 1987 and that must install collection and control systems according to EPA’s emissions guidelines for existing MSW landfills. EPA publishes regulations under sections 111(d) and 129 of the Clean Air Act requiring states to submit control plans to EPA. These state control plans show how states intend to control the emissions of designated pollutants from designated facilities (*e.g.*, landfills). The state of Vermont submitted this negative declaration in lieu of a state control plan.

DATES: This direct final rule is effective on July 21, 2003 without further notice unless EPA receives significant adverse comment by June 23, 2003. If EPA receives adverse comment, we will publish a timely withdrawal of the direct final rule in the **Federal Register** and inform the public that the rule will not take effect.

ADDRESSES: You should address your written comments to: Mr. Steven Rapp, Chief, Air Permits, Toxics & Indoor Programs Unit, Office of Ecosystem Protection, U.S. EPA, One Congress Street, Suite 1100 (CAP), Boston, MA 02114–2023.
