

specified in paragraph (a) of this subsection;

(2) Inspection and acceptance contract requirements; and

(3) A determination as to whether the information technology requires protection against compromising emanations.

239.7103-2 Compromising emanations—TEMPEST or other standard.

For acquisitions requiring information assurance against compromising emanations, the requiring activity is responsible for providing to the contracting officer—

(a) The required protections, *i.e.*, an established National TEMPEST standard (*e.g.*, NACSEM 5100, NACSIM 5100A) or a standard used by other authority;

(b) The required identification markings to include markings for TEMPEST or other standard, certified equipment (especially if to be reused); and

(c) Inspection and acceptance requirements addressing the validation of compliance with TEMPEST or other standards.

239.7104 Contract clause.

Use the clause at 252.239-7000, Protection Against Compromising Emanations, in solicitations and contracts involving information technology that requires protection against compromising emanations.

PART 252—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

3. Section 252.239-7000 is revised to read as follows:

252.239-7000 Protection Against Compromising Emanations.

As prescribed in 239.7104, use the following clause:

PROTECTION AGAINST COMPROMISING EMANATIONS (XXX 2003)

(a) The Contractor shall provide or use only information technology, as specified by the Government, that has been accredited to meet the appropriate information assurance requirements of—

(1) The National Security Agency National TEMPEST Standards (NACSEM No. 5100 or NACSEM No. 5100A, Compromising Emanations Laboratory Test Standard, Electromagnetics (U)); or

(2) Other standards specified by this contract.

(b) Upon request of the Contracting Officer, the Contractor shall provide documentation supporting the accreditation.

(c) The Government may, as part of its inspection and acceptance, conduct additional tests to ensure that information technology delivered under this contract satisfies the information assurance standards

specified. The Government may conduct additional tests—

(1) At the installation site or contractor's facility; and

(2) Notwithstanding the existence of valid accreditations of information technology prior to the award of this contract.

(d) Unless otherwise provided in this contract under the Warranty of Supplies or Warranty of Systems and Equipment clause, the Contractor shall correct or replace accepted information technology found to be deficient within one year after proper installations.

(1) The correction or replacement shall be at no cost to the Government.

(2) Should a modification to the delivered information technology be made by the Contractor, the one-year period applies to the modification upon its proper installation.

(3) This paragraph (d) applies regardless of f.o.b. point or the point of acceptance of the deficient information technology.
(End of clause)

[Docket No. 030409081-3081-01; I.D. 032103B]

Fisheries of the Northeastern United States; Northeast (NE) Multispecies Fishery; Extension of Comment Period

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed emergency rule; partial extension of comment period.

SUMMARY: NMFS is extending the public comment period on the measures associated with the proposed NE Multispecies DAS Leasing Program of the NE multispecies proposed emergency rule that was published in the *Federal Register* on April 24, 2003, through June 10, 2003. The emergency rule proposes to continue management measures implemented on August 1, 2002, consistent with the Settlement Agreement Among Certain Parties (Settlement Agreement) and to implement a DAS Leasing Program to mitigate impacts of the Settlement Agreement measures and to provide flexibility to some segments of the fishing industry. The intent of this notification is to inform the public that the comment period on the proposed DAS Leasing Program will be extended until June 10, 2003. In addition, NMFS informs the public that the docket

number for the proposed rule published April 24, 2003, was inadvertently omitted. This document reflects the docket number related to the April 24, 2003, proposed rule.

DATES: The comment period on the proposed regulatory text for the DAS Leasing Program contained in §§ 648.2, 648.4(a)(1)(i)(G), 648.14, 648.82, and § 648.92 of the April 24, 2003 (68 FR 20096) proposed emergency rule is extended from May 27, 2003, through June 10, 2003. The comment period on the continuation of the Settlement Agreement measures and amendments to § 648.4(a)(1)(i)(I)(2) and (c)(2)(iii) and § 648.81(h)(1) will end on May 27, 2003. All comments must be received no later than 5 p.m., local time, on the last day of the respective comment periods.

ADDRESSES: Written comments on the proposed emergency rule should be sent to Patricia A. Kurkul, Regional Administrator, National Marine Fisheries Service, One Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope, "Comments on the Proposed Emergency Rule for Groundfish." Comments also may be sent via facsimile (fax) to (978) 281-9135. Comments will not be accepted if submitted via e-mail or Internet.

FOR FURTHER INFORMATION CONTACT: Thomas Warren, Fishery Policy Analyst, phone 978-281-9347, fax: 978-281-9135; email: thomas.warren@noaa.gov.

SUPPLEMENTARY INFORMATION: A proposed emergency rule was published in the *Federal Register* on April 24, 2003 (68 FR 20096) and subsequently corrected on May 9, 2003 (68 FR 24914), that would continue measures implemented on August 1, 2002, consistent with the Settlement Agreement, which was adopted by the U.S. District Court (Court) for the District of Columbia in a Remedial Order (Order) issued on May 23, 2002, as a result of *Conservation Law Foundation, et al. v. Evans, et al.* In addition, the emergency rule would implement a DAS Leasing Program under the emergency authority of section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act in order to mitigate the impacts resulting from the continuation of the August 1, 2002, interim final rule measures (67 FR 50292). The DAS Leasing Program would allow limited access NE multispecies vessels to lease their NE multispecies DAS during the current fishing year. Additional information on the background and proposed measures appear in the preamble of the April 24, 2003, proposed emergency rule and are not repeated here.
