

regulations or the grant agreement specify another alternative (or a combination of the alternatives). In specifying alternatives, SSA may distinguish between income earned by the grantee and income earned by subgrantees and between the sources, kinds, or amounts of income. When SSA authorizes the alternatives in paragraphs (g)(2) and (3) of this section, program income in excess of any limits stipulated will also be deducted from outlays.

(1) *Deduction.* Ordinarily program income must be deducted from total allowable costs to determine the net allowable costs. Program income must be used for current costs unless SSA authorizes otherwise. Program income that the grantee did not anticipate at the time of the award must be used to reduce SSA and grantee contributions rather than to increase the funds committed to the project.

(2) *Addition.* When authorized, program income may be added to the funds committed to the grant agreement by SSA and the grantee. The program income must be used for the purposes and under the conditions of the grant agreement.

(3) *Cost sharing or matching.* When authorized, program income may be used to meet the cost sharing or matching requirement of the grant agreement. The amount of the Federal grant award remains the same.

(h) *Income after the award period.* There are no Federal requirements governing the disposition of program income earned after the end of the award period (*i.e.*, until the ending date of the final financial report, see paragraph (a) of this section), unless the terms of the agreement or SSA regulations provide otherwise.

§ 437.26 Non-Federal audit.

(a) *Basic Rule.* Grantees and subgrantees are responsible for obtaining audits in accordance with the Single Audit Act Amendments of 1996 (31 U.S.C. 7501–7507) and revised OMB Circular A–133, “Audits of States, Local Governments, and Non-Profit Organizations.” The audits must be made by an independent auditor in accordance with generally accepted government auditing standards covering financial audits.

(b) *Subgrantees.* State or local governments, as those terms are defined for purposes of the Single Audit Act Amendments of 1996, that provide Federal awards to a subgrantee, which expends \$300,000 or more (or other amount as specified by OMB) in Federal awards in a fiscal year, must:

(1) Determine whether State or local subgrantees have met the audit requirements of the Act and whether subgrantees covered by OMB Circular A–110, “Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations,” have met the audit requirements of the Act. Commercial contractors (private for-profit and private and governmental organizations) providing goods and services to State and local governments are not required to have a single audit performed. State and local governments should use their own procedures to ensure that the contractor has complied with laws and regulations affecting the expenditure of Federal funds;

(2) Determine whether the subgrantee spent Federal assistance funds provided in accordance with applicable laws and regulations. This may be accomplished by reviewing an audit of the subgrantee made in accordance with the Act, Circular A–110, or through other means (*e.g.*, program reviews) if the subgrantee has not had such an audit;

(3) Ensure that appropriate corrective action is taken within six months after receipt of the audit report in instance of noncompliance with Federal laws and regulations;

(4) Consider whether subgrantee audits necessitate adjustment of the grantee’s own records; and

(5) Require each subgrantee to permit independent auditors to have access to the records and financial statements.

(c) *Auditor selection.* In arranging for audit services, grantees and subgrantees must follow the rules in § 437.36.

Changes, Property, and Subawards

§ 437.30 Changes.

(a) *General.* Grantees and subgrantees are permitted to rebudget within the approved direct cost budget to meet unanticipated requirements and may make limited program changes to the approved project. However, unless waived by the SSA, certain types of post-award changes in budgets and projects require the prior written approval of SSA. Approvals are not valid unless they are in writing, and signed by at least one of the following SSA officials:

(1) The responsible SSA Grants Management Officer; or

(2) The SSA Commissioner or subordinate official with proper delegated authority from the Commissioner.

(b) *Relation to cost principles.* The applicable cost principles (see § 437.22) contain requirements for prior approval

of certain types of costs. Except where waived, those requirements apply to all grants and subgrants even if paragraphs (c) through (f) of this section do not.

(c) *Budget changes.* (1)

Nonconstruction projects. Except as stated in other SSA regulations or an award document, grantees or subgrantees must obtain prior approval from SSA whenever any of the following changes is anticipated under a nonconstruction award:

(i) Any revision which would result in the need for additional funding.

(ii) Unless waived by SSA, cumulative transfers among direct cost categories, or, if applicable, among separately budgeted programs, projects, functions, or activities which exceed or are expected to exceed ten percent of the current total approved budget, whenever SSA’s share exceeds \$100,000.

(iii) Transfer of funds allotted for training allowances (*i.e.*, from direct payments to trainees to other expense categories).

(2) *Construction projects.* Grantees and subgrantees must obtain prior written approval for any budget revision that would result in the need for additional funds.

(3) *Combined construction and nonconstruction projects.* When a grant or subgrant provides funding for both construction and nonconstruction activities, the grantee or subgrantee must obtain prior written approval from SSA before making any fund or budget transfer from nonconstruction to construction or vice versa.

(d) *Programmatic changes.* Grantees or subgrantees must obtain the prior approval from SSA whenever any of the following actions is anticipated:

(1) Any revision of the scope or objectives of the project (regardless of whether there is an associated budget revision requiring prior approval).

(2) Need to extend the period of availability of funds.

(3) Changes in key persons in cases where specified in an application or a grant award. In research projects, a change in the project director or principal investigator always requires approval unless waived by SSA.

(4) Under nonconstruction projects, contracting out, subcontracting (if authorized by law) or otherwise obtaining the services of a third party to perform activities that are central to the purposes of the award. This approval requirement is in addition to the approval requirements of § 437.36 but does not apply to the procurement of equipment, supplies, and general support services.
