

(Stationary Source Reporting Requirements), 216 (Air Contaminant Discharge Permits), 218 (Oregon Title V Operating Permits), 222 (Stationary Source Plant Site Emission Limits), 224 (Major New Source Review), 225 (Air Quality Analysis Requirements), 226 (General Emission Standards), 228 (Requirements for Fuel Burning Equipment and Fuel Sulfur Content), 232 (Emission Standards for VOC Point Sources), 234 (Emission Standards for Wood Products Industries), 236 (Emission Standards for Specific Industries), 240 (Rules for Areas with Unique Air Quality Needs), 242 (Rules Applicable to the Portland Area), 250 (General Conformity), 252 (Transportation Conformity), 256 (Motor Vehicles), 258 (Motor Vehicle Fuel Specifications), 262 (Residential Woodheating), 264 (Rules for Open Burning), 266 (Field Burning Rules (Willamette Valley)), and 268 (Emission Reduction Credits). Cross-reference tables for the old and new division numbers are available in the docket for this action.

B. Summary of Action

We are approving the recodified version of Oregon's rules to replace the old divisions in the current SIP. ODEQ submitted revised versions of Divisions 200, 202, 204, 210, 212, 214, 216, 222, 224, 226, 240, and 268 on June 26, 2001. The approval of these sections is discussed in section III below. In addition, in the process of reviewing the recodification submittal against the current SIP, some past errors were discovered. We are correcting these errors in this action, and they are described below, along with the exceptions to our approval of the recodification submittal.

Division 208, Visible Emissions and Nuisance Requirements; Division 256, Motor Vehicles; and Division 264, Rules for Open Burning (New Division Numbers)

We are not acting on Division 208 (Visible Emissions and Nuisance Requirements), Division 256 (Motor Vehicles), and Division 264 (Rules for Open Burning) in this action. These divisions have been subsequently revised by ODEQ and were submitted to EPA for approval on March 13, 2001 (Division 208), September 21, 2000 (Division 256), December 1, 2000 (Division 256), and June 26, 2000 (Division 264). We will be acting on Divisions 208, 256, and 264 in a separate rulemaking.

Division 218, Oregon Title V Operating Permits

We are taking no action on Division 218, Oregon title V Operating Permits, because Federal Operating Permit (title V) programs and rules are reviewed and approved by EPA through the title V approval process, which is independent of the SIP approval process.

Division 21, General Emission Standards for Particulate Matter (Old Division Number)

On May 13, 1998 (63 FR 26460), EPA approved the removal of section 21-025, Refuse Burning Equipment Limitations, which had been repealed by ODEQ in 1996. In 1999, this section was mistakenly re-approved back into the SIP. We are removing section 21-025 from the SIP in this action. Sections 21-015, 21-050, 21-055, and 21-060, Visible Air Contaminant Limitations and Fugitive Emissions, will not be removed from the SIP. These sections were renumbered to Division 208, which, as discussed above, will be acted on in a separate rulemaking. Sections 21-200 through 21-245, Industrial Contingency Requirements for PM-10 Nonattainment Areas, will also remain in the SIP at this time. These sections were repealed by ODEQ in 1998 and ODEQ submitted a PM-10 revocation package requesting the removal of these sections from the SIP. These sections will be acted on in a separate rulemaking.

Division 22, General Gaseous Emissions (Old Division Number)

In 1997, EPA approved section 22-108, Applicability of Alternative Control Systems, into the SIP. This approval was done in error as ODEQ repealed this rule in 1983. Therefore, we are removing section 22-108 from the SIP in this action.

Division 31, Ambient Air Quality Standards (Old Division Number)

We are removing section 31-035, Hydrocarbons, from the SIP. ODEQ repealed this outdated section in 1998. In 1978, EPA revoked the hydrocarbons standard from 40 CFR 50 and changed the precursor for ozone from hydrocarbons to volatile organic compounds (VOC). Therefore, a hydrocarbons standard is no longer necessary.

Division 232, Emission Standards for VOC Point Sources

40 CFR 52.1985 describes the conditions of our past approvals of ODEQ's VOC regulations. We are removing 40 CFR 52.1985 because the version of Division 232 that we are

approving in this action satisfies these conditions.

Division 234, Emission Standards for Wood Products Industries (New Division Number)

We are not acting on references to total reduced sulfur (TRS) in this division because control of TRS is not appropriate for inclusion in the SIP because it is not a criteria pollutant.

Division 236, Emission Standards for Specific Industries (New Division Number)

We are approving this division, with the exception of references to Fluorides because control of Fluorides is not appropriate for inclusion in the SIP because it is not a criteria pollutant.

Division 250, General Conformity (New Division Number)

On September 27, 1995, ODEQ submitted a complete package of General Conformity rules (Division 20) to EPA for approval into the SIP. On October 8, 1998, ODEQ submitted further revisions to their General Conformity rules. This 1998 submittal only contained the sections that were revised. The 1998 submittal was approved in a **Federal Register** document on March 22, 2000 (65 FR 15244). The sections that were not revised in 1998 (20-1500, 20-1540, 20-1550, and 20-1560), however, were never approved as part of the SIP. The entire package of General Conformity rules was submitted in the recodification package in 1999, where Division 20 was renumbered to Division 250. The previously unapproved sections comply with the Federal rules under 40 CFR part 51, subpart W, so therefore we are now approving all sections of ODEQ's General Conformity rules, under the new Division 250. However, we are taking no action on section 250-0110, Savings Provision, which describes how the Federal and State rules work together, because it is not needed in the SIP.

Division 252, Transportation Conformity (New Division Number)

On March 22, 2000 (65 FR 15244), EPA approved ODEQ's Transportation Conformity rules into the SIP. We are approving the new rule numbers for the Transportation Conformity rules with the same exceptions as the original approval in 2000. In the March 22, 2000, **Federal Register** document there was a typographical error regarding an exception in the Incorporation by Reference (IBR). The exception should refer to section 750(5)(b) rather than
