

disseminate option quotations in a timely manner. Such occurrences include fast market conditions such as volatility, order imbalances, volume surges or significant price variances in the underlying security; internal system malfunctions including the Exchange's Auto-Quote system; or malfunctions of external systems such as a specialized quote feed, or delays in the dissemination of quotes from the Option Price Reporting Authority; or other similar occurrences.

The Exchange shall document any action taken to disengage AUTO-X pursuant to this Rule 1080(e), and shall notify all AUTOM Users of each instance in which AUTO-X is disengaged due to extraordinary circumstances. Such documentation shall include: identification of the option(s) affected by such action (except in a case of floor-wide disengagement); the date and time such action was taken and concluded; identification of the Floor Officials who approved such action; the reasons for which such action was taken; identification of the Specialist and the Specialist Unit (or in the case of floor-wide disengagement, identification of the Options Committee Chairperson or his/her designee); and identification of the Market Surveillance staff person monitoring the situation. The Exchange will maintain these documents pursuant to the record retention requirement of the Securities Exchange Act of 1934 and the rules and regulations thereunder.

(b) *AUTO-X on the NBBO.* AUTO-X on the NBBO (the "NBBO Feature") is a feature of AUTOM that automatically executes at the National Best Bid or Offer ("NBBO"). The NBBO Feature will execute AUTO-X eligible orders at the NBBO for certain options designated by the Options Committee as eligible for the NBBO Feature ("automatic step-up options"), provided that the NBBO does not differ from the specialist's best bid or offer by more than the "step-up parameter."

(i) The "step-up parameter" for automatic step-up options shall be the minimum trading increment for options in that series established pursuant to Exchange Rule 1034, or any greater amount established by the Options Committee in respect of specified automatic step-up options or series of options.

(ii) The Chairman of the Options Committee or his designee (or if the Chairman of the Options Committee or his designee is unavailable, two Floor Officials) may determine to disengage the NBBO Feature for orders in certain automatic step-up options after notice to AUTOM users in situations in which

the Exchange is experiencing communications or systems problems; fast markets; or delays in the dissemination of quotes because of queues on the Options Price Reporting Authority ("OPRA"), which would likely render such quotes stale. Where the NBBO Feature is disengaged, such orders shall be executed manually in accordance with Exchange rules.

(iii) In respect of automatic step-up options (1) where the specialist's best bid or offer is inferior to the current best bid or offer in another market by more than the step-up parameter; or (2) where the NBBO for one of the series of automatic step-up options is crossed (i.e., 2.10 bid, 2 asked) or locked (i.e., 2 bid, 2 asked); or (3) in respect of equity options other than automatic step-up options where the specialist's best bid or offer is inferior to the current best bid or offer in another market by any amount, such orders shall be executed manually in accordance with Exchange rules. There may be circumstances in which the specialist's best bid or offer is inconsistent with the Exchange's best bid or offer. In such a circumstance, such an order shall be executed manually.

(iv) Where the Chairman of the Options Committee or his designee (or if the Chairman of the Options Committee or his designee is unavailable, two Floor Officials) determines that quotes in options on the Exchange or another market or markets are subject to relief from the firm quote requirement set forth in the SEC Quote Rule, as defined in Exchange Rule 1082(a)(iii) (the "Quote Rule"), customer market orders will receive an automatic execution at the NBBO based on the best bid or offer in markets whose quotes are not subject to relief from the firm quote requirement set forth in the Quote Rule. Such determination may be made by way of notification from another market that its quotes are not firm or are unreliable; administrative message from the Option Price Reporting Authority ("OPRA"); quotes received from another market designated as "not firm" using the appropriate indicator; and/or telephonic or electronic inquiry to, and verification from, another market that its quotes are not firm. AUTOM customers will be duly notified via electronic message from AUTOM that such quotes are excluded from the calculation of NBBO. The Exchange may determine to exclude quotes from its calculation of NBBO on a series-by-series basis or issue-by-issue basis, or may determine to exclude all options quotes from an exchange, where appropriate. The Exchange shall maintain a record of each instance in

which another exchange's quotes are excluded from the Exchange's calculation of NBBO, and shall notify such other exchange that its quotes have been so excluded. Such documentation shall include: identification of the option(s) affected by such action; the date and time such action was taken and concluded; identification of the other exchange(s) whose quotes were excluded from the Exchange's calculation of NBBO; identification of the Chairman of the Options Committee, his designee, or two Floor Officials (as applicable) who approved such action; the reasons for which such action was taken; and identification of the specialist and the specialist unit. The Exchange will maintain these documents pursuant to the record retention requirements of the Securities Exchange Act of 1934 and the rule and regulations thereunder.

(v) Where the Chairman of the Options Committee or his designee (or if the Chairman of the Options Committee or his designee is unavailable, two Floor Officials), determines that quotes in options on the Exchange or another market or markets previously subject to relief from the firm quote requirement set forth in the Quote Rule are no longer subject to such relief, such quotations will be included in the calculation of NBBO for such options. Such determination may be made by way of notification from another market that its quotes are firm; administrative message from the Option Price Reporting Authority ("OPRA"); and/or telephonic or electronic inquiry to, and verification from, another market that its quotes are firm. AUTOM customers will be duly notified via electronic message from AUTOM that such quotes are again included in the calculation of NBBO.

Fine Schedule (Implemented on a one-year running basis).

(a) Failure to engage Auto-X:

1st Occurrence	\$500.00
2nd Occurrence	\$1,000.00
3rd Occurrence	\$2,000.00
