

produced in the U.S. This production represents, on average, less than 4 percent of total U.S. production for other tree nuts, and less than 4 percent of the world's hazelnut production.

During the 2001–2002 season, 78 percent of the kernels were marketed in the domestic market and 22 percent were exported. Domestically produced kernels generally command a higher price in the domestic market than imported kernels. The industry is continuing its efforts to develop and expand other markets with emphasis on the domestic kernel market. Small business entities, both producers and handlers, benefit from the expansion efforts resulting from this program.

Inshell hazelnuts produced under the order compete well in export markets because of quality. Based on Board statistics, Europe has historically been the primary export market for U.S. produced inshell hazelnuts, with a 10-year average of 5,436 tons out of total average exports of 12,132 tons. Recent years have seen a significant shift in export destinations. Inshell shipments to Europe totaled 4,526 tons in the 2001–2002 season, representing 17 percent of exports, with the largest share going to Germany. Inshell shipments to Southwest Pacific countries, and Hong Kong in particular, have increased dramatically in the past few years, rising to 73 percent of total exports of 25,868 tons in the 2001–2002 season. The industry continues to pursue export opportunities.

There are some reporting, recordkeeping, and other compliance requirements under the order. The reporting and recordkeeping burdens are necessary for compliance purposes and for developing statistical data for maintenance of the program. The information collection requirements have been previously approved by the Office of Management and Budget under OMB No. 0581–0178. The forms require information which is readily available from handler records and which can be provided without data processing equipment or trained statistical staff. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies. This rule does not change those requirements. In addition, as noted in the initial regulatory flexibility analysis, USDA has not identified any relevant Federal rules that duplicate, overlap or conflict with this rule.

Further, as mentioned earlier, the Board's meetings were widely publicized throughout the hazelnut

industry and all interested persons were invited to attend the meetings and participate in Board deliberations. Like all Board meetings, those held on August 29, and November 15, 2002, were public meetings and all entities, both large and small, were able to express their views on this issue.

An interim final rule concerning this action was published in the **Federal Register** on March 12, 2003. The Board's staff mailed copies of this rule to all Board members. In addition, the rule was made available through the Internet by the Office of the Federal Register and USDA. That rule provided for a 60-day comment period that ended May 12, 2003. No comments were received.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

After consideration of all relevant material presented, including the Board's recommendation, and other information, it is found that finalizing the interim final rule, without change, as published in the **Federal Register** (68 FR 11733, March 12, 2003) will tend to effectuate the declared policy of the Act.

7 CFR Part 985

[Docket No. FV03–985–2 FR]

Spearmint Oil Produced in the Far West; Increased Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule increases the assessment rate established for the Spearmint Oil Administrative Committee (Committee) for the 2003–2004 and subsequent marketing years from \$0.09 to \$0.10 per pound of spearmint oil handled. The Committee locally administers the marketing order, which regulates the handling of spearmint oil produced in the Far West. Authorization to assess spearmint oil handlers enables the Committee to incur expenses that are reasonable and necessary to administer the program. The marketing year begins June 1 and ends May 31. The assessment rate will remain in effect indefinitely unless modified, suspended, or terminated.

EFFECTIVE DATE: June 2, 2003.

FOR FURTHER INFORMATION CONTACT:

Susan M. Hiller, Northwest Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1220 SW., Third Ave, Suite 385, Portland, OR 97204; Phone: (503) 326–2724; Fax: (503) 326–7440; or George Kelhart, Technical Advisor, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue SW., STOP 0237, Washington, DC 20250–0237; telephone: (202) 720–2491, Fax: (202) 720–8938.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue SW., STOP 0237, Washington, DC 20250–0237; telephone: (202) 720–2491, Fax: (202) 720–8938, or E-mail: Jay.Guerber@usda.gov.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Order No. 985, as amended (7 CFR part 985), regulating the handling of spearmint oil produced in the Far West (Washington, Idaho, Oregon, and designated parts of Nevada and Utah), hereinafter referred to as the “order.” The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the “Act.”

The Department of Agriculture (USDA) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. Under the marketing order now in effect, Far West spearmint oil handlers are subject to assessments. Funds to administer the order are derived from such assessments. It is
