An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

**II. Did EPA Approve the Applications?**

The Agency approved the applications after considering all required data on risks associated with the proposed uses of Indian Meal Moth Granulosis Virus; *Bacillus licheniformis* strain SB3086; *Bacillus pumilus* strain GB34, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of Indian Meal Moth Granulosis Virus; *Bacillus licheniformis* strain SB3086; *Bacillus pumilus* strain GB34 when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.
