

directly to an agency of the Federal Government or to an authorized ACES Registration Authority providing ACES-related services under a contract with GSA. Compliance with all of the attending requirements is enforced through binding contracts, periodic monitoring by GSA, annual audits by independent auditing firms, and annual re-accreditation by GSA. Only fully accredited Registration Authorities will be permitted to accept and maintain identity information provided by the public.

The identity information collected will be used only to establish and verify the identity and eligibility of applicants for ACES certificates; no other use of the information is permitted.

Participation in the ACES Program is strictly voluntary, but participation will only be permitted upon presentation of identity information by the applicant, and verification of that information by an authorized ACES Registration Authority.

ACES is designed to permit on-line, arms-length registration through the Internet, which significantly reduces the public's reporting burden. Based upon preliminary tests run on similar systems for gathering identity-related information from the public (*e.g.*, U.S. Passports, initial issuance of state-issued driver's license, etc.), the individual reporting burden for providing identity information for the initial ACES certificate is estimated at an average of 15 minutes, including gathering the information together and entering the data into the electronic forms provided by the authorized ACES Registration Authorities.

No reliable information is yet available to support any estimate relating to the number of individuals who will seek to register to participate in the ACES Program. Thus, no estimate of the overall reporting burden is being provided at this time.

C. Purpose

GSA is responsible for assisting Federal agencies with the implementation and use of digital signature technologies to enhance electronic access to government information and services by all eligible persons. In order to ensure that the ACES program certificates are issued to the proper individuals, GSA will continue to collect identity information from persons who elect to participate in ACES.

D. Annual Reporting Burden:

Respondents: 1,000,000.

Annual Responses: 1.

Average hours per response: 0.25

Burden Hours: 250,000.
