

Table 4 - Seventy Percent of Updated 2003 Lower Living Standard Income Level (LLSIL), by Family Size

To use the seventy percent LLSIL value, where it is stipulated for WIA programs, individuals must begin by locating the region or metropolitan area where they reside. These are listed in Tables 1, 2 and 3. Individuals must locate their region or metropolitan statistical area and then find the seventy percent LLSIL amount for that location. The seventy percent LLSIL figures are listed in the last column to the right on each of the three tables. These figures apply to a family of four. Larger and smaller family eligibility is based on a percentage of the family of four. To determine eligibility for other size families consult the table below.

To use Table 4, locate the seventy percent LLSIL value that applies to the individual's region or metropolitan area from Tables 1, 2 or 3. Find the same number in the "family of four" column of Table 4. Move left or right across that row to the size that corresponds to the individual's family unit. That figure is the maximum household income the individual is permitted in order to qualify as economically disadvantaged under WIA.

Where the HHS poverty level for a particular family size is greater than the corresponding LLSIL figure, the LLSIL figure is indicated in parentheses. Individuals from these size families may consult the 2003 HHS poverty guidelines found in the Federal Register, Vol. 68, No. 26, February 7, 2003, pp. 6456-6458 (on the Internet at <http://www.aoa.gov/network/2003/2003povguidetable.html>) to find the higher eligibility standard. Individuals from Alaska and Hawaii should consult the HHS guidelines for the generally higher poverty levels that apply in their states.

Family of One	Family of Two	Family of Three	Family of Four	Family of Five	Family of Six
(\$6,430)	(\$10,530)	(\$14,460)	(\$17,840)	(\$21,060)	(\$24,620)
