### Centers for Disease Control and Prevention

[Program Announcement 03022]

#### Chronic Disease Prevention and Health Promotion Programs

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2003 funds for a cooperative agreement program for Chronic Disease Prevention and Health Promotion Programs.

##### Table of Contents

- A. Authority and Catalog of Federal Domestic Assistance
- B. Purpose
- C. Eligible Applicants—See Appendix “D” for Current Program Announcement Numbers and Titles
- D. Funding
  - Specific Requirements for Each Component Are Incorporated Under Sections D.1. to D.7. Through G.1. to G.7. Sections A Through C and H Through J Apply to All Components.
- E. Program Requirements
- F. Content
- G. Evaluation
- H. Submission and Deadline
- I. Other Requirements
- J. Where to Obtain Information

##### A. Authority and Catalog of Federal Domestic Assistance Number

Components 1 (Tobacco), 2 (Nutrition, Physical Activity, Obesity), 4 (Oral Disease), 6 (BRFSS), and 7 (Genomics)

This program is authorized under section 301 (a) and 317 (k) (2) of the Public Health Service Act, [42 U.S.C. section 241 (a) and 247b(k) (2), as amended]. The Catalog of Federal Domestic Assistance number is 93.283.

##### Component 3—WISEWOMAN

This program is authorized under sections 1501–1509 [42 U.S.C. 300k–300n–4a] of the Public Health Service Act, as amended. The consolidated Appropriations Act, 2000, Public Law 106–113, also authorizes this program. The Catalog of Federal Domestic Assistance (CFDA) number is 93.283. See <http://www.cdc.gov/wisewoman/legislationhighlight.htm> for WISEWOMAN authorization and link to BCCEDP legislation.

##### Component 5—Arthritis

This program is authorized under section 301(a) and 317(k) (2) of the Public Health Service Act, [42 U.S.C. section 241 (a) and 247b(k) (2), as amended]. The Catalog of Federal Domestic Assistance number is 93.945.

##### B. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2003 funds for a cooperative agreement program for Chronic Disease Prevention and Health Promotion Programs. This program addresses the “Healthy People 2010” focus areas of Tobacco Use, Physical Activity and Fitness, Nutrition and Overweight, Public Health Infrastructure, Oral Health, Arthritis, Osteoporosis, Back Conditions, Educational and Community-Based Programs, Cancer, Diabetes, Genomics, and Surveillance and Data Systems.

The purpose of the program is to support capacity building, support program planning, development, implementation, evaluation, and surveillance for current and emerging chronic diseases conditions.

The Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP) is issuing this program announcement in an effort to simplify and streamline the grant pre-award and post-award administrative process, provide increased flexibility in the use of funds, measure performance related to each grantee’s stated objectives and identify and establish the long-term goals of Health Promotion programs through stated performance measures. These efforts include incorporation of improved performance measures, enhancement of short and long term objectives, combining multiple reports, establishment of consistent reporting requirements, and advancing from one public health program funding level to a higher level based on performance.

This program announcement incorporates funding guidance for the following seven program components: Tobacco; Nutrition, Physical Activity, and Obesity; Well Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN); State-based Oral Disease Prevention; Arthritis; Behavior Risk Factor Surveillance Systems (BRFSS); and Genomics and Chronic Disease Prevention programs.

CDC encourages recipients to identify opportunities to link chronic disease and health promotion efforts across this and related program announcements, where appropriate (*i.e.* cardiovascular health, diabetes, genomics, tobacco, nutrition and physical activity, obesity, etc.). These efforts could include co-funding of recipient activities and cost sharing of staff time, in support of shared, overlapping objectives across program components and cooperative agreements. Such complementary

activities must meet the program objectives of the funded component/program.

Your application should be submitted as one application but should consist of each separate Specific Categorical Component. Applications will be due on March 28, 2003. The categorical components and specific purposes for each are:

**Component 1: Comprehensive State-Based Tobacco Prevention and Control Programs**—The purpose of this program is to achieve four Program Goals through community interventions and mobilization; counter-marketing; policy development and implementation; and surveillance and evaluation. The goals are: prevent initiation to tobacco use among young people; eliminate exposure to second hand smoke; promote cessation among adults and young people who use tobacco; and identify and eliminate tobacco-related disparities among specific population groups.

**Component 2: State Nutrition and Physical Activity Programs to Prevent Obesity and Other Chronic Diseases**—The purpose of the program is to prevent and control obesity and other chronic diseases by supporting States in the development and implementation of science-based nutrition and physical activity interventions. Major program areas are: balancing caloric intake and expenditure; improved nutrition through increased breastfeeding and increased consumption of fruits and vegetables; increased physical activity; and reduced television time. See Goals at <http://www.cdc.gov/nccdp/dnpa/rfainformation.htm>.

**Component 3: Well integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN)**—The purpose of this program is to support health promotion efforts through the WISEWOMAN program, focusing on early detection of chronic diseases and their associated risk factors and prevention of chronic diseases through lifestyle interventions. The WISEWOMAN program promotes a healthy lifestyle through increased physical activity, improved nutrition, weight control, and smoking cessation. The target population is women aged 40–64 years old who are participants in the National Breast and Cervical Cancer Early Detection Program (NBCCEDP) comprehensive screening programs funded by the Centers for Disease Control and Prevention (CDC). Because eligibility for the NBCCEDP is based on inadequate health insurance coverage and lack of financial resources, the WISEWOMAN program aims to increase access to quality care through screening
