

implemented by this grant. To ensure the accountability of this data (for which OJP is responsible) the following performance measures are provided:

- The number of investigations.
- The number of computer forensic examinations.

Under this solicitation, applicants will be required to supply OJJDP with the above performance information. In addition, OJJDP will measure the performance of the ICAC Task Force Program. Data collection will be covered within the existing ICAC Monthly Performance Report (MPR) forms. MPR is a required data-reporting document that was created by OJJDP to collect ICAC data related to arrests, subpoenas, search warrants, technical assistance (investigative and computer forensic), and prevention and intervention activities performed by ICAC Regional Task Forces and ICAC Investigative Satellites. Data gathered from MPRs will track the number of arrests made and the outcomes of those arrests (plea bargains, prosecutions, etc.), assist in the identification of victims who need resources such as counseling and therapy, and track tips and aid in target area identification.

Data collected from MPRs will provide crucial baseline data necessary for a future evaluation of the ICAC Task Force Program after it has been fully established throughout the country. Assistance in obtaining this information will facilitate future program planning and will allow OJP to provide Congress with measurable program results of Federally funded programs.

#### Coordination of Federal Efforts

To encourage better coordination among Federal agencies in addressing State and local needs, the U.S. Department of Justice requests that applicants provide information on the following: (1) Active Federal grant award(s) supporting this or related efforts, including awards from the U.S. Department of Justice; (2) any pending application(s) for Federal funds for this or related efforts; and (3) plans for coordinating any funds described in items (1) or (2) with the funding sought by this application. For each Federal

award, applicants must include the program or project title, the Federal grantor agency, the amount of the award, and a brief description of its purpose.

"Related efforts" is defined for these purposes as one of the following:

- Efforts for the same purpose (*i.e.*, the proposed award would supplement, expand, complement, or continue activities funded with other Federal grants).
- Another phase or component of the same program or project (*e.g.*, to implement a planning effort funded by other Federal funds or to provide a substance abuse treatment or education component within a criminal justice project).
- Services of some kind (*e.g.*, technical assistance, research, or evaluation) rendered to the program or project described in the application.
