

development, as well as development of public infrastructure such as roads and utilities. Zone 2 is proposed to consist of the service areas of Solano Irrigation District, Maine Prairie Water District, Reclamation District No. 2068, and the Solano County Water Agency flood control channels. Proposed covered activities in this zone consist of the inclusion, expansion or annexation of service areas by these districts, and ongoing operation, maintenance, and construction of new irrigation, flood control, and drainage facilities. Zone 3 consists of the remainder of the Plan area within Solano and Yolo counties. Proposed covered activities in Zone 3 consist primarily of activities related to implementation of the Plan conservation measures including habitat management, habitat enhancement, and habitat restoration and construction, monitoring, scientific collection, and associated compatible activities on designated reserves, mitigation sites, mitigation banks and open space lands, and lands adjacent to conservation areas. Zone 3 may also include non-agricultural activities carried out by the cities on lands outside of their respective jurisdictional boundaries, such as construction, operation and maintenance of communication facilities, water supply reservoirs and recreational facilities management. Activities proposed to be covered in Yolo County, as part of Zone 3, are those activities related to Reclamation District No. 2068 and the potential implementation of conservation measures in the Putah Creek riparian zone.

Under the Plan, the effects of covered activities on the covered species are expected to be minimized and mitigated through participation in a conservation program, which will be fully described in the Plan. The focus of this conservation program is to provide long-term protection of covered species by protecting biological communities in the Plan area, thereby providing protection at an ecosystem level while accommodating compatible land use and economic growth.

Critical Habitat has been designated for one of the listed salmonid species, two other animal species, and a candidate salmonid species within the Plan area. Critical Habitat is proposed for several listed vernal pool invertebrate and vernal pool plant species proposed for coverage in the Plan.

Components of a conservation program are now under consideration by the Services and the Applicants. These components will likely include: Avoidance and minimization measures,

monitoring, adaptive management, research, and mitigation measures consisting of preservation, restoration and enhancement of habitat.

Environmental Impact Statement/Report

The Solano County Water Agency and the Services have selected CH2M Hill to prepare the Draft EIS/EIR. The joint document will be prepared in compliance with NEPA and the California Environmental Quality Act (CEQA). Although CH2M Hill will prepare the EIS/EIR, the USFWS will be responsible for the scope and content of the document for NEPA purposes, and the Solano County Water Agency will be responsible for the scope and content of the document for CEQA purposes.

The EIS/EIR will consider the proposed action (issuance of section 10(a)(1)(B) ESA permits), no action (no permit), and a reasonable range of alternatives. A detailed description of the proposed action and alternatives will be included in the EIS/EIR. It is anticipated that several alternatives will be developed, which may vary by the level of conservation, impacts caused by the proposed activities, permit area, covered species, or a combination of these factors.

The EIS/EIR will also identify potentially significant impacts on biological resources, land use planning (land use development patterns), air quality, water quality, mineral resources, water resources, economics, and other environmental issues that could occur directly or indirectly with implementation of the proposed action and alternatives. For all potentially significant impacts, the EIS/EIR will identify mitigation measures where feasible to reduce these impacts to a level below significance.

Environmental review of the EIS/EIR will be conducted in accordance with the requirements of NEPA (42 U.S.C. 4321 *et seq.*) its implementing regulations (40 CFR parts 1500–1508), other applicable regulations, and Service procedures for compliance with those regulations. We are publishing this notice in accordance with Section 1501.7 of NEPA to obtain suggestions and information from other agencies and the public on the scope of issues to be addressed in the EIS/EIR and the alternatives to be considered. More specifically, we provide this notice: (1) To describe the proposed action and possible alternatives; (2) to advise other Federal and State agencies, affected Tribes, and the public of our intent to prepare an EIS/EIR; (3) to announce the initiation of a public scoping period; and (4) to obtain suggestions and

information on the scope of issues to be included in the EIS/EIR. The primary purpose of the scoping process is to identify, rather than to debate, significant issues related to the proposed action. We invite written comments from interested parties to ensure that the full range of issues related to the permit requests are identified. All comments received, including names and addresses, will become part of the official administrative record and may be made available to the public.

Dated: May 23, 2003.

D. Kenneth McDermond,

Deputy Manager, Region 1, California/Nevada Operations Office, Sacramento, California.

BILLING CODE 4310–55–P

INTERNATIONAL TRADE COMMISSION

[USITC SE–03–016]

Sunshine Act Meeting

AGENCY HOLDING THE MEETING:

International Trade Commission.

TIME AND DATE: June 12, 2003 at 11 a.m.

PLACE: Room 101, 500 E Street SW., Washington, DC 20436, Telephone: (202) 205–2000.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

1. *Agenda for future meetings:* none.
2. Minutes.
3. Ratification List.

4. Inv. No. 731–TA–1013 (Final)(Saccharin from China)—briefing and vote. (The Commission is currently scheduled to transmit its determination and Commissioners' opinions to the Secretary of Commerce on or before June 25, 2003.)

5. *Outstanding action jackets:* none.

In accordance with Commission policy, subject matter listed above, not disposed of at the scheduled meeting, may be carried over to the agenda of the following meeting.

By order of the Commission.

Issued: June 2, 2003.

Marilyn R. Abbott,

Secretary to the Commission.
