

durum wheat as a separate wheat type (separate optional units may be established for initially planted winter durum wheat and initially planted spring durum wheat if the Special Provisions specify both as wheat types).

3. Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities

(a) In addition to the requirements of section 3 of the Basic Provisions, you may select only one price election for each crop in the county insured under this policy unless the Special Provisions provide different price elections by type, in which case each type must be insured using the

price election for the respective type. The price elections you choose for each type must have the same percentage relationship to the maximum price offered by us for each type. For example, if you choose 100 percent of the maximum price election for one type, you must also choose 100 percent of the maximum price election for all other types.

(b) In addition to the requirements of section 3 of the Basic Provisions, in counties with both fall and spring sales closing dates for the insured crop, you may only change your coverage level or price election until the spring sales closing date if you do not have any insured fall planted acreage of the

insured crop. If you have any insured fall planted acreage of the insured crop, you may not change your coverage level or price election after the fall sales closing date.
