

among partnership assets under paragraph (b) of this section. Basis adjustments under section 734(b) are allocated among partnership assets under paragraph (c) of this section.

(2) *Coordination of sections 755 and 1060.* If there is a basis adjustment to which this section applies, and the assets of the partnership constitute a trade or business (as described in § 1.1060-1(b)(2)), then the partnership is required to use the residual method to assign values to the partnership's section 197 intangibles. To do so, the partnership must, first, determine the value of partnership assets other than section 197 intangibles under paragraph (a)(3) of this section. The partnership then must determine partnership gross value under paragraph (a)(4) of this section. Last, the partnership must assign values to the partnership's section 197 intangibles under paragraph (a)(5) of this section. For purposes of this section, the term *section 197 intangibles* includes all section 197 intangibles (as defined in section 197), as well as any goodwill or going concern value that would not qualify as a section 197 intangible under section 197.

(3) *Values of properties other than section 197 intangibles.* For purposes of this section, the fair market value of each item of partnership property other than section 197 intangibles shall be determined on the basis of all the facts and circumstances, taking into account section 7701(g).

(4) *Partnership gross value*—(i) *Basis adjustments under section 743(b)*—(A) *In general.* Except as provided in paragraph (a)(4)(ii) of this section, in the case of a basis adjustment under section 743(b), partnership gross value generally is equal to the amount that, if assigned to all partnership property, would result in a liquidating distribution to the partner equal to the transferee's basis in the transferred partnership interest immediately following the relevant transfer (reduced by the amount, if any, of such basis that is attributable to partnership liabilities).

(B) *Special situations.* In certain circumstances, such as where income or loss with respect to particular section 197 intangibles are allocated differently among partners, partnership gross value may vary depending on the values of particular section 197 intangibles held by the partnership. In these special situations, the partnership must assign value, first, among section 197 intangibles (other than goodwill and going concern value) in a reasonable manner that is consistent with the ordering rule in paragraph (a)(5) of this section and would cause the appropriate liquidating distribution under paragraph

(a)(4)(i)(A) of this section. If the actual fair market values, determined on the basis of all the facts and circumstances, of all section 197 intangibles (other than goodwill and going concern value) is not sufficient to cause the appropriate liquidating distribution, then the fair market value of goodwill and going concern value shall be presumed to equal an amount that if assigned to goodwill and going concern value would cause the appropriate liquidating distribution.

(C) *Income in respect of a decedent.* Solely for the purpose of determining partnership gross value under this paragraph (a)(4)(i), where a partnership interest is transferred as a result of the death of a partner, the transferee's basis in its partnership interest is determined without regard to section 1014(c), and is deemed to be adjusted for that portion of the interest, if any, that is attributable to items representing income in respect of a decedent under section 691.

(ii) *Basis adjustments under section 743(b) resulting from substituted basis transactions.* This paragraph (a)(4)(ii) applies to basis adjustments under section 743(b) that result from exchanges in which the transferee's basis in the partnership interest is determined in whole or in part by reference to the transferor's basis in the interest or to the basis of other property held at any time by the transferee (substituted basis transactions). In the case of a substituted basis transaction, partnership gross value equals the value of the entire partnership as a going concern, increased by the amount of partnership liabilities at the time of the exchange giving rise to the basis adjustment.

(iii) *Basis adjustments under section 734(b).* In the case of a basis adjustment under section 734(b), partnership gross value equals the value of the entire partnership as a going concern immediately following the distribution causing the adjustment, increased by the amount of partnership liabilities immediately following the distribution.

(5) *Determining the values of section 197 intangibles*—(i) *Two classes.* If the aggregate value of partnership property other than section 197 intangibles (as determined in paragraph (a)(3) of this section) is equal to or greater than partnership gross value (as determined in paragraph (a)(4) of this section), then all section 197 intangibles are deemed to have a value of zero for purposes of this section. In all other cases, the aggregate value of the partnership's section 197 intangibles (the residual section 197 intangibles value) is deemed to equal the excess of partnership gross value over the aggregate value of

partnership property other than section 197 intangibles. The residual section 197 intangibles value must be allocated between two asset classes in the following order—

(A) Among section 197 intangibles other than goodwill and going concern value; and

(B) To goodwill and going concern value.

(ii) *Values assigned to section 197 intangibles other than goodwill and going concern value.* The fair market value assigned to a section 197 intangible (other than goodwill and going concern value) shall not exceed the actual fair market value (determined on the basis of all the facts and circumstances) of that asset on the date of the relevant transfer. If the residual section 197 intangibles value is less than the sum of the actual fair market values (determined on the basis of all the facts and circumstances) of all section 197 intangibles (other than goodwill and going concern value) held by the partnership, then the residual section 197 intangibles value must be allocated among the individual section 197 intangibles (other than goodwill and going concern value) as follows. The residual section 197 intangibles value is assigned first to any section 197 intangibles (other than goodwill and going concern value) having potential gain that would be treated as unrealized receivables under the flush language of section 751(c) (flush language receivables) to the extent of the basis of those section 197 intangibles and the amount of income arising from the flush language receivables that the partnership would recognize if the section 197 intangibles were sold for their actual fair market values (determined based on all the facts and circumstances) (collectively, the flush language receivables value). If the value assigned to section 197 intangibles (other than goodwill and going concern value) is less than the flush language receivables value, then the assigned value is allocated among the properties giving rise to the flush language receivables in proportion to the flush language receivables value in those properties. Any remaining residual section 197 intangibles value is allocated among the remaining portions of the section 197 intangibles (other than goodwill and going concern value) in proportion to the actual fair market values of such portions (determined based on all the facts and circumstances).

(iii) *Value assigned to goodwill and going concern value.* The fair market value of goodwill and going concern value is the amount, if any, by which
