Proposed Project: Safe Schools/Healthy Students Sustainability Study—New—This study, a project of SAMHSA's Center for Mental Health Services (CMHS), involves a survey of project directors or other designated staff associated with the Safe Schools/Healthy Students (SS/HS) Initiative. The SS/HS Initiative is a collaborative effort between the U.S. Departments of Education, Health and Human Services, and Justice. Under this initiative, local education agencies (LEAs) were awarded grants in partnership with their local mental health agency and their local juvenile justice agency. Between September 1999 and September 2002,

143 communities received three-year awards under the SS/HS Initiative.

As this Initiative was designed to facilitate sustainable change within communities, CMHS would like to determine the extent to which systems-level changes, programs, and services initiated as part of SS/HS continue when the grant ends. A web-based survey of project directors will be conducted annually for three years. Respondents will be project directors or other designated staff responsible for continuing programs and services following the SS/HS grant.

This information will be used by CMHS to improve the grant making process and the provision of technical assistance. The following table describes the response burden associated with this data collection.

Year	Number of respondents	Responses per respondent	Hours per response	Total burden hours
One	77	1	.5	39
Two	97	1	.5	49
Three	143	1	.5	72
Total	317			160
3-yr. Annual Average	106			53
