

repurchase agreements or other short-term instruments either directly or through a Money Market Fund; (iii) the Interfund Loans would not involve a greater risk than such other investments; (iv) a lending Fund would receive interest at a rate higher than it could obtain through such other investments; and (v) a borrowing Fund would pay interest at a rate lower than otherwise available to it under bank loan agreements and avoid the up-front commitment fees associated with committed lines of credit. Moreover, applicants believe that the other conditions that applicants propose would effectively preclude the possibility of any Fund obtaining an undue advantage over any other Fund.

4. Section 17(a)(1) of the Act generally prohibits an affiliated person of a registered investment company, or an affiliated person of an affiliated person, from selling any securities or other property to the company. Section 12(d)(1) of the Act generally makes it unlawful for a registered investment company to purchase or otherwise acquire any security issued by any other investment company, except in accordance with the limitations set forth in that section. Applicants state that the obligation of a borrowing Fund to repay an Interfund Loan may constitute a security for purposes of sections 17(a)(1) and 12(d)(1) of the Act. Section 12(d)(1)(f) of the Act provides that the Commission may exempt persons or transactions from any provision of section 12(d)(1) if and to the extent that such exception is consistent with the public interest and the protection of investors. Applicants contend that the standards under sections 6(c), 17(b) and 12(d)(1)(f) of the Act are satisfied for all the reasons set forth above in support of their request for relief from sections 17(a)(3) and 21(b) and for the reasons discussed below.

5. Applicants state that section 12(d)(1) was intended to prevent the pyramiding of investment companies in order to avoid duplicative costs and fees attendant upon multiple layers of investment companies. Applicants submit that the proposed credit facility does not involve these abuses. Applicants note that there would be no duplicative costs or fees to the Funds or shareholders. SBC Financial would administer the credit facility under its existing advisory agreements with the Funds, and would receive no additional compensation for its services. Applicants also note that the purpose of the proposed credit facility is to provide economic benefits for all of the participating Funds and their shareholders.

6. Section 18(f)(1) of the Act prohibits open-end investment companies from issuing any senior security, except that a company is permitted to borrow from any bank, if immediately after the borrowing there is an asset coverage of at least 300 percent for all borrowings of the company. Under section 18(g) of the Act, the term "senior security" includes any bond, debenture, note, or similar obligation or instrument constituting a security and evidencing indebtedness. Applicants request exemptive relief from section 18(f)(1) to the limited extent necessary to implement the credit facility (because the lending Funds are not banks).

7. Applicants believe that granting relief under section 6(c) of the Act is appropriate because the Funds would remain subject to the requirement of section 18(f)(1) that all borrowings of the Fund, including combined credit facility and bank borrowings, have at least 300% asset coverage. Based on the conditions and safeguards described in the application, applicants also submit that to allow the Funds to borrow from other Funds pursuant to the proposed credit facility is consistent with the purposes and policies of section 18(f)(1).

8. Section 17(d) of the Act and rule 17d-1 under the Act generally prohibit an affiliated person of a registered investment company, or an affiliated person of such a person, when acting as principal, from effecting any joint transaction unless the transaction is approved by the Commission. Rule 17d-1(b) under the Act provides that in passing upon applications for exemptive relief from section 17(d), the Commission will consider whether the participation of a registered investment company in a joint enterprise on the basis proposed is consistent with the provisions, policies, and purposes of the Act and the extent to which the company's participation is on a basis different from, or less advantageous than, that of other participants.

9. Applicants submit that the purpose of section 17(d) is to avoid overreaching by, and unfair advantage to, investment company insiders. Applicants believe that the credit facility is consistent with the provisions, policies and purposes of the Act in that it offers both reduced borrowing costs and enhanced returns on loaned funds to all participating Funds and their shareholders. Applicants note that each Fund would have an equal opportunity to borrow and lend on equal terms consistent with its investment policies and fundamental investment limitations. Applicants therefore believe that each Fund's participation in the proposed credit facility will be on terms no different

from, or less advantageous than, that of other participating Funds.

Applicants' Conditions

Applicants agree that any order granting the requested relief will be subject to the following conditions:

1. The Interfund Loan Rate to be charged to the Funds under the credit facility will be the average of the Repo Rate and the Bank Loan Rate.

2. On each business day, SBC Financial will compare the Bank Loan Rate with the Repo Rate and will make cash available for Interfund Loans only if the Interfund Loan Rate is (i) more favorable to the lending Fund than the Repo Rate and, if applicable, the yield of any Money Market Fund in which the lending Fund could otherwise invest and (ii) more favorable to the borrowing Fund than the Bank Loan Rate.

3. If a Fund has outstanding borrowings, any Interfund Loans to the Fund (i) will be at an interest rate equal to or lower than any outstanding bank loan, (ii) will be secured at least on an equal priority basis with at least an equivalent percentage of collateral to loan value as any outstanding bank loan that requires collateral, (iii) will have a maturity no longer than any outstanding bank loan (and in any event not over seven days), and (iv) will provide that, if an event of default occurs under any agreement evidencing an outstanding bank loan to the Fund, that event of default will automatically (without need for action or notice by the lending Fund) constitute an immediate event of default under the Interfund Lending Agreement entitling the lending Fund to call the Interfund Loan (and exercise all rights with respect to any collateral) and that such call will be made if the lending bank exercises its right to call its loan under its agreement with the borrowing Fund.

4. A Fund may make an unsecured borrowing through the credit facility if its outstanding borrowings from all sources immediately after the interfund borrowing total 10% or less of its total assets, provided that if the Fund has a secured loan outstanding from any other lender, including but not limited to another Fund, the Fund's interfund borrowing will be secured on at least an equal priority basis with at least an equivalent percentage of collateral to loan value as any outstanding loan that requires collateral. If a Fund's total outstanding borrowings immediately after an interfund borrowing would be greater than 10% of its total assets, the Fund may borrow through the credit facility on a secured basis only. A Fund may not borrow through the credit facility or from any other source if its
