

with *Indian Tribal Governments* (65 FR 67249, November 6, 2000). Executive Order 13175, requires EPA to develop an accountable process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications.” “Policies that have tribal implications” is defined in the Executive order to include regulations that have “substantial direct effects on one or more Indian tribes, on the relationship between the Federal Government and the Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.” This rule will not have substantial direct effects on tribal governments, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified in Executive Order 13175. Thus, Executive Order 13175 does not apply to this rule.

VI. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a “major rule” as defined by 5 U.S.C. 804(2).

Utah: Final Authorization of State Hazardous Waste Management Program Revision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: Utah applied to EPA for Final authorization of revisions to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA has reached a final determination that these changes satisfy all requirements needed to qualify for Final authorization. Thus, with respect to these revisions, EPA is granting Final authorization to the State to operate its program subject to the limitations on its authority retained by EPA in accordance with RCRA, including the Hazardous and Solid Waste Amendments (HSWA) of 1984.

DATES: Final authorization for the revisions to Utah’s hazardous waste management program will become effective June 11, 2003.

FOR FURTHER INFORMATION CONTACT: Kris Shurr, 8P–HW, U.S. EPA, Region VIII, 999 18th Street, Suite 300, Denver, Colorado 80202–2466, phone number: (303) 312–6139 or e-mail: shurr.kris@epa.gov.

SUPPLEMENTARY INFORMATION:

A. Why Are Revisions to State Programs Necessary?

States which have received Final authorization from EPA under RCRA section 3006(b), 42 U.S.C. 6926(b), must maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal program. As the Federal program changes, States must change their programs and ask EPA to authorize the

changes. Changes to State programs may be necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, States must change their programs because of changes to EPA’s regulations in 40 Code of Federal Regulations (CFR) parts 124, 260 through 266, 268, 270, 273 and 279.

Utah initially received Final Authorization on October 10, 1984, effective October 24, 1984 (49 FR 39683) to implement its base hazardous waste management program. Utah received authorization for revisions to its program on February 21, 1989 (54 FR 7417), effective March 7, 1989; May 23, 1991 (56 FR 23648) and August 6, 1991 (56 FR 37291), both effective July 22, 1991; May 15, 1992 (57 FR 20770), effective July 14, 1992; February 12, 1993 (58 FR 8232) and May 5, 1993 (58 FR 26689), both effective April 13, 1993; October 14, 1994 (59 FR 52084), effective December 13, 1994; May 20, 1997 (62 FR 27501), effective July 21, 1997; January 13, 1999 (64 FR 02144), effective March 15, 1999; October 16, 2000 (65 FR 61109), effective January 16, 2001, and May 7, 2002 (67 FR 30599), effective July 7, 2002.

On February 12, 2003, Utah submitted a final complete program revision application, seeking authorization of additional changes to its program in accordance with 40 CFR 271.21. On April 10, 2003, EPA published both an Immediate Final Rule (68 FR 17556) granting Utah Final authorization for these revisions to its Federally-authorized hazardous waste program, along with a companion Proposed Rule announcing EPA’s proposal to grant such a Final authorization (68 FR 17577). EPA announced in both notices that the Immediate Final Rule and the Proposed Rule were subject to a thirty-day public comment period. The public comment period ended on May 12, 2003. EPA did receive identical written comments from two commenters during the public comment period. Today’s action responds to the comments EPA received and publishes EPA’s Final determination granting Utah Final authorization of its program revisions. Further background on EPA’s Immediate Final Rule and its tentative determination to grant authorization to Utah for its program revisions appears in the aforementioned **Federal Register** notices. The issues raised by the commenters are summarized and responded to in Item B.

B. What Were the Comments and Responses to EPA’s Proposal?

Both commenters challenged Region VIII’s process for authorizing revisions
