

(b) In addition to complying with § 172.407, the background on the Poison Gas label and the symbol must be white. The background of the upper diamond must be black and the lower point of the

upper diamond must be 6.3 mm (0.25 inches) above the horizontal center line.

17. Section 172.429 would be revised to read as follows:

§ 172.429 Poison Inhalation Hazard label.

(a) Except for size and color, the POISON INHALATION HAZARD label must be as follows:
