

(b) In addition to complying with § 172.519, the background on the Poison Gas placard and the symbol must be white. The background of the upper diamond must be black and at least 100 mm (3.9 inches) on each side. The lower

point of the upper diamond must be 30 mm (1.2 inches) above the horizontal center line. The text, class number, and inner border must be black.

22. Section 172.555 would be revised to read as follows:

§ 172.555 POISON INHALATION HAZARD placard.

(a) Except for size and color, the POISON INHALATION HAZARD placard be as follows:
