Potassium Permanganate from the People's Republic of China: Extension of Time Limit for the Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: June 11, 2003.

FOR FURTHER INFORMATION CONTACT: John Conniff or Drew Jackson, AD/CVD Enforcement, Office 4, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-1009 or (202) 482-4406, respectively.

TIME LIMITS:

Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department of Commerce (the Department) to make a preliminary determination within 245 days after the last day of the anniversary month of an order or finding for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the 245-day time limit for the preliminary determination to a maximum of 365 days and the time limit for the final determination to 180 days (or 300 days if the Department does not extend the time limit for the preliminary determination) from the date of publication of the preliminary determination.

Background

On February 26, 2002, the Department published a notice of initiation for the administrative review of the antidumping duty order on potassium permanganate from the People's Republic of China, covering the period

January 1, 2001, through December 31, 2001. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 67 FR 8780. On February 18, 2003, the Department published the preliminary results of its review. *See Potassium Permanganate from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review*, 68 FR 7768. In our notice of preliminary results, we stated our intention to issue the final results of this review no later than 120 days after publication of the preliminary results. The final results are currently due on June 18, 2003.

Extension of Time Limit for Final Results of Review

We determine that it is not practicable to complete the final results of this review within the original time limit. Therefore, the Department is extending the time limit for completion of the final results until no later than August 17, 2003. *See* Decision Memorandum from Thomas F. Futtner to Holly A. Kuga, dated concurrently with this notice, which is on file in the Central Records Unit, Room B-099 of the Department's main building.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: June 5, 2003.

Holly A. Kuga,

Acting Deputy Assistant Secretary for Import Administration, Group II.

Application for Duty-Free Entry of Scientific Instrument

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 03-023.

Applicant: University of Missouri—Kansas City, Kansas City, MO 64110.

Instrument: OptoTOP HE 3-D Digitizing System.

Manufacturer: Breuckmann GmbH, Germany.

Intended Use: The instrument is intended to be used to digitally image and measure the skeletal remains and teeth of extant and fossil mammals. Research is aimed to learn more about the patterns and processes of mammalian evolution by studying the three-dimensional form of the skeletal and dental anatomy. The specimens studied will be preserved specimens housed in the collections of various natural history museums. Three-dimensional, digital images will be collected and stored in a digital archive. Using a computer graphics workstation, the images will be subjected to morphometric analyses of variation in size and shape.

Application accepted by Commissioner of Customs: May 20, 2003.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

University of California, Berkeley; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 03-019.

Applicant: University of California—Berkeley, Berkeley, CA 94720-2020.

Instrument: Fiber Optical Coherence Tomography Apparatus.

Manufacturer: Institute of Applied Physics RAS, Russia.

Intended Use: See notice at 68 FR 23979, May 6, 2003.

Comments: None received.

Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States.
